New York.

This useful volume of general information will be sent to any part of the world, express paid, on receipt of ONE DOLLAR.

SHOULD BE CAREFULLY READ.

In presenting this, the Fifth Edition of our "Illustrated," to the Horse owners of this country and the world at large, we have spared neither expense, time nor trouble to produce a much needed, very useful and unique work—in which we show, by many expensive and truthful drawings, numerous articles used in connection with Horses to develop their speed, to dress for show or comfort, to harness for business or pleasure, or to decorate according to the tastes of their owners or drivers.

We ask a careful and not too hasty an examination of the many illustrations of the various articles of Horse Furnishing Goods herein shown and described, and hope by such inspection both the readers and publishers may be benefited—the readers by finding something that would be useful to them, and the publishers by receiving an order for the same.

In ordering goods at any time, please be careful to give your **name, post office address,** (also Express office), **County** and **State,** in **plain, bold letters,** so that we may make no mistake in shipping. All orders will be filled by us with a desire to please the party ordering, and where goods are not particularly specified, but left partly or fully to our discretion, we will do the best in our judgment to satisfy the purchaser—but would at all times prefer the buyer to state plainly what is wanted.

If you do not buy of us this book will help you to buy of others.

Where goods are sent C. O. D. a deposit of at least $2.00 will be required to assure us that the goods will be taken from the Express office upon arrival.

Reliable parties cannot object to this reasonable request.

CORRESPONDENCE BUREAU.

IF YOU DO BUSINESS IN

Egypt, India, Africa, Turkey, China, Japan, Russia, Prussia, Austria, France, Italy, Spain, Germany, Switzerland, Norway, Sweden, Denmark, Holland, Belgium, England, Ireland, Scotland, Australia, North or South America, the United States, or any other part of the World the sun shines on; and are

MANUFACTURERS OF HIGH CLASS GOODS,

Which would apply in any way to our line of business, you might do yourself a favor by **communicating with us,** either by mail or personally explaining your line of production, which might lead to business connections that would be to our mutual advantage.

Samples of your production, or circulars refering to them, might be sent us by mail if not too bulky.

Information respecting the introduction to the trade of new goods freely given.

All questions promptly and properly answered so far as we are able.

An invitation is extended to all to visit our place of business when in New York City.

If from a distance, when in this city have your mail sent to our care.

Correspondence Solicited on any Business Subject.

Yours for business,

C. M. MOSEMAN & BROTHER,

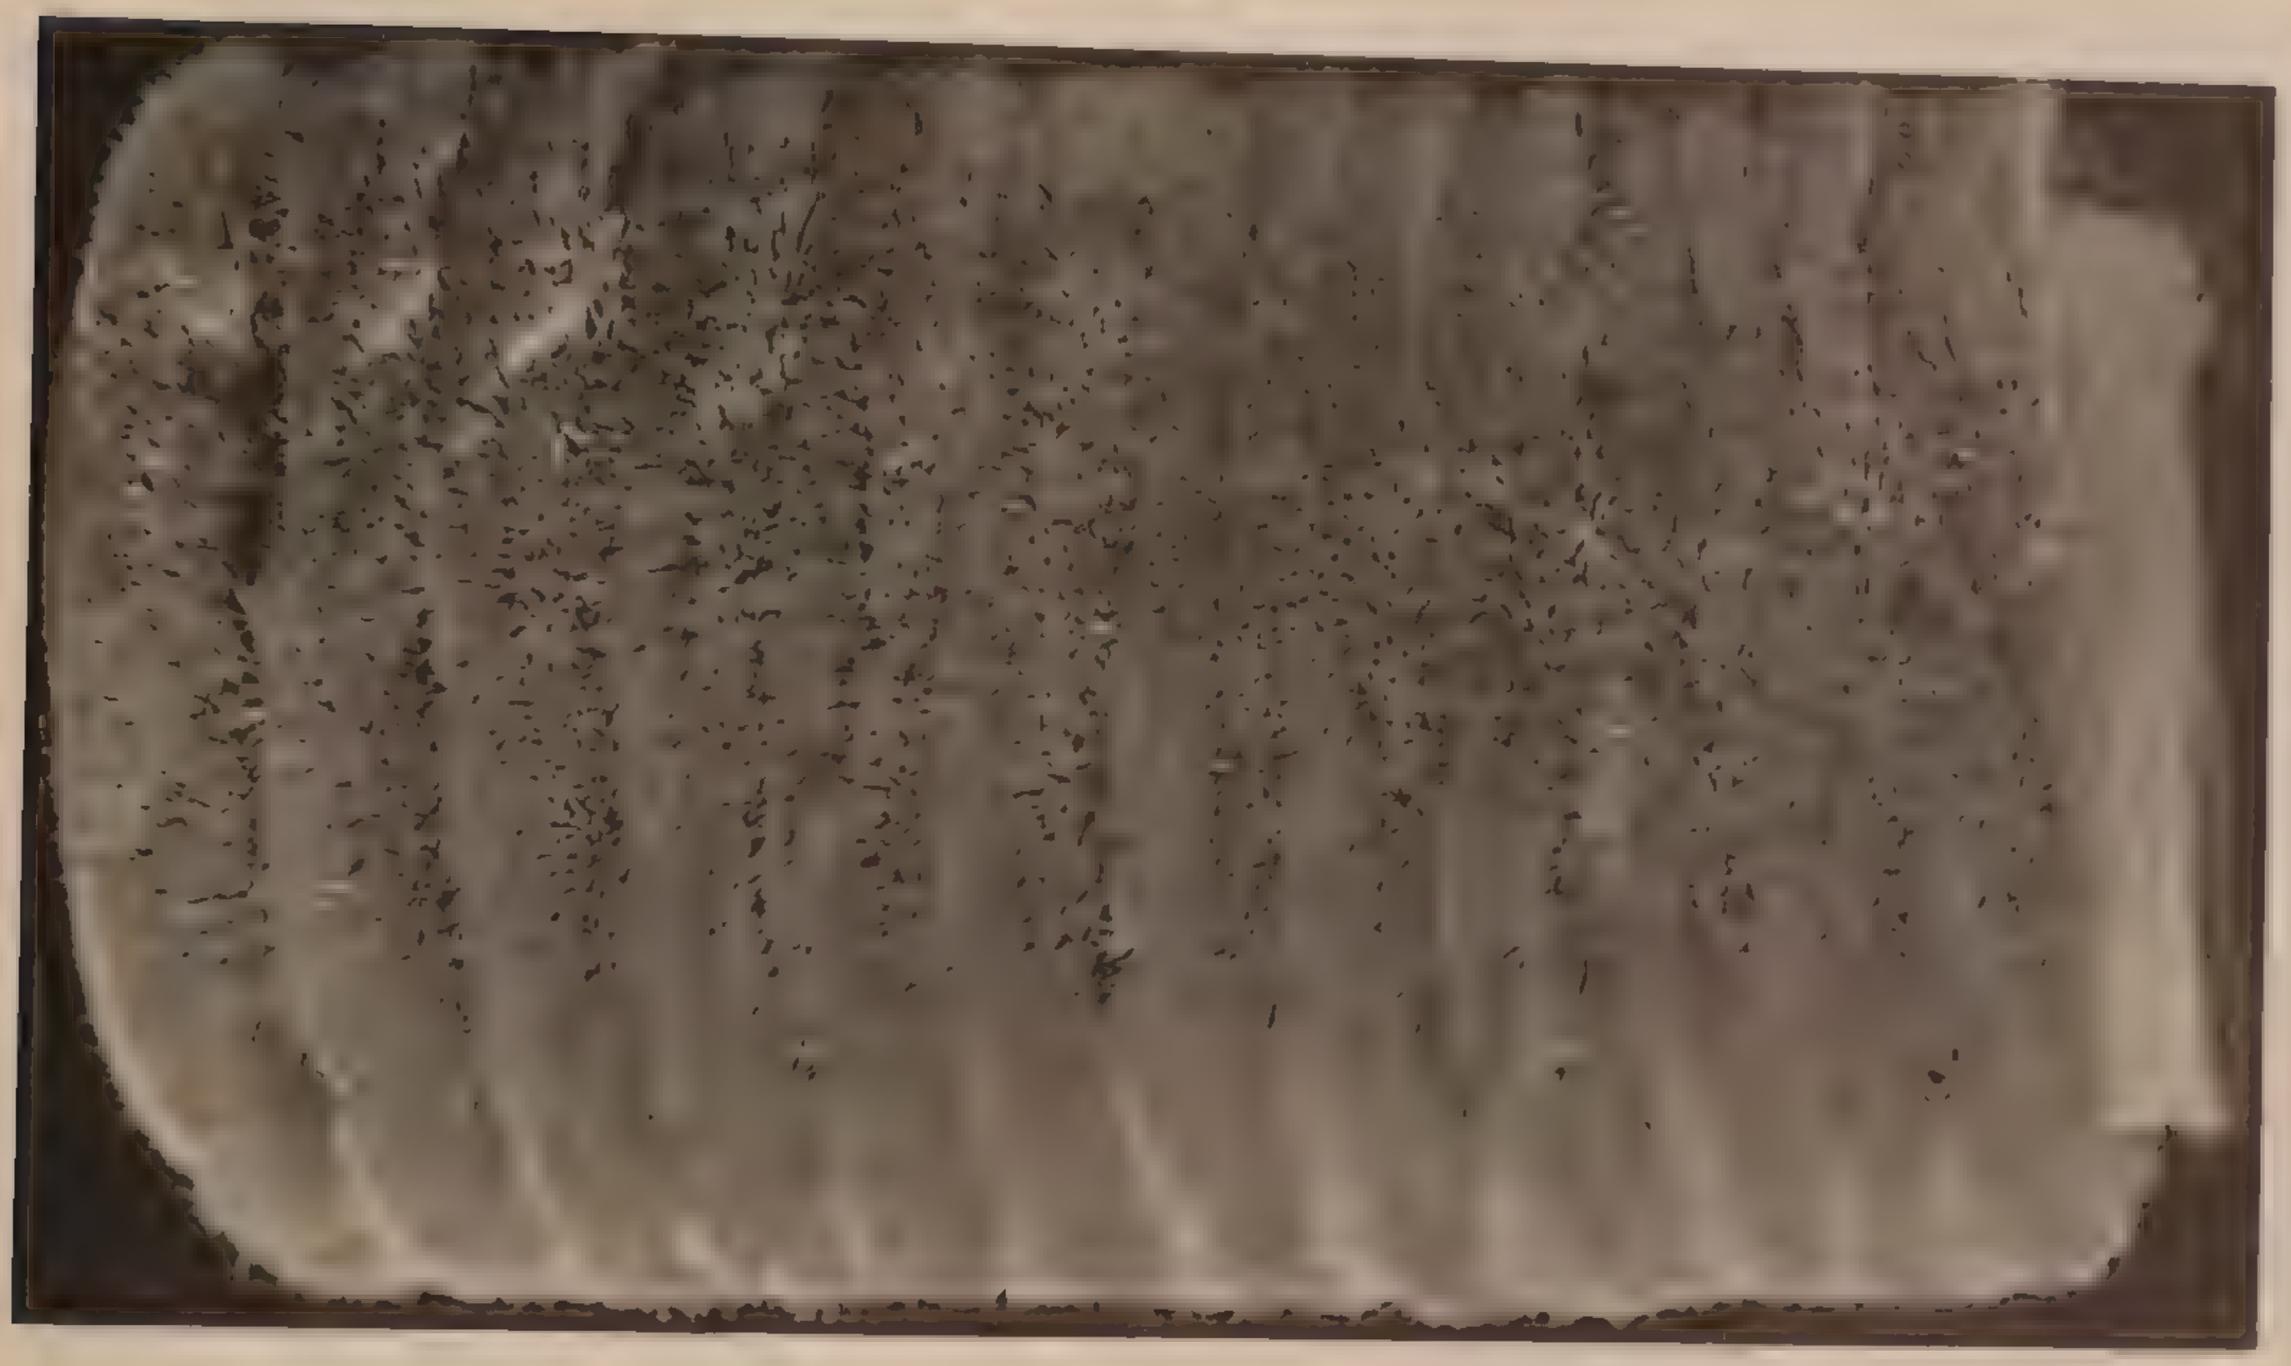
HORSEMEN,

CLEAN YOUR HORSES WITH

The Magoris Cactus Fibre

HORSE BRUSH.

PATENTED.



Made from the fibre of the long leaved Cactus of Yucutan. It lasts longer than your horse. A good rub once or twice a day with the Cactus Fibre Horse Brush stimulates the hair glands and follicles, producing a healthy circulation which results in a fine coated animal in a few weeks.

Fits into, around and upon every surface. The only Brush in the world that can be washed and boiled without harm. It is impossible for your horse to chill if rubbed with the Cactus Fibre Brush.

The Cactus Fibre Brushes are not a new experiment; they are used by some of the best Veterinary Surgeons, Horse Breeders, Trainers and Drivers in the country. If you have the time and inclination to read, we can furnish you with testimonials by the hundreds and thousands.

OILS AND DRESSINGS.

FRANK MILLER'S CELEBRATED HARNESS DRESSING.

One Quart. One Pint. 1372

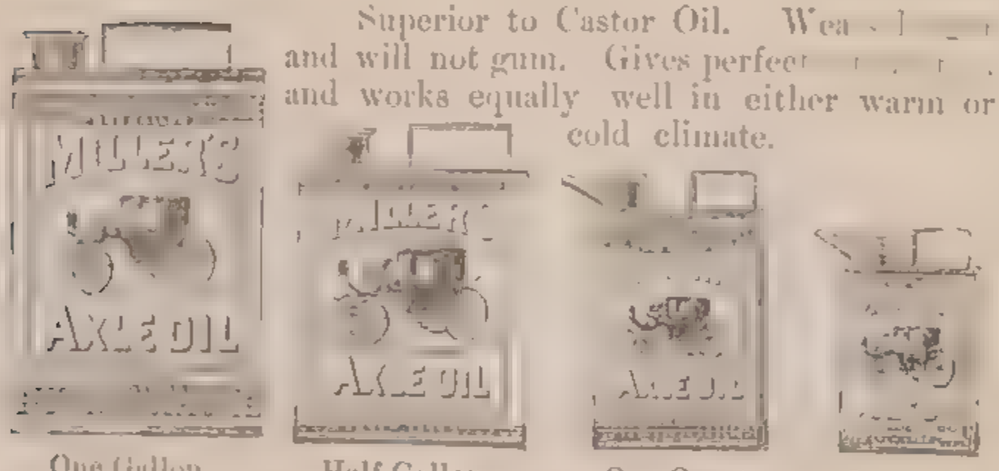
A superior article for the use of both manufacturer and owner of harness. Unequaled for use in livery, express and private stables. Gives a beautiful jet black finish that does not peel, crack, smut or harden the leather. With it a harness can be dressed as quickly as the sponge can be passed over the surface and in five minutes is ready for use. It is the "Standard of the World."

PREPARED HARNESS OIL BLACKING.

For harness that has become hard and dry this preparation is invaluable as it penetrates the leather and keeps it permanently pliable. It restores to the leather its natural oils and consequently strength to the harness. "A chain is only as strong as its weakest link" and your harness is only as strong as its weakest part. Buy a good harness and keep it in perfect order.

1373—Half Pint. One Pint. One Quart. Half Gallon. One Gallon.

AXLE OIL.



One Gallon. Half Gallon. One Quart. One Pint.

Superior to Castor Oil. Wears longer and will not gum. Gives perfect satisfaction and works equally well in either warm or cold climate.

1374

HARNESS SOAP.

Unrivalled for cleaning, softening and blacking harness, carriage tops, etc., imparting a beautiful finish, which will not soil the hands or gloves. Made under an improved patent process This Soap is absolutely pure; consequently free from rosin and an excess of alkali.

"DO NOT CUT THIS BOOK."

Every consumer or dealer in Harness and Saddlery, no matter in what part of the world he does business, will promote his own interests by sending us **ONE DOLLAR** and receiving in return a copy of this complete Illustrated Guide Book. It is the key to success in the prosecution of business. He cannot afford to be without the knowledge it contains of every department of the trade. It will surely serve as a lamp to light him through the many perplexities which are incidental to the Harness Industry.

With this Book in your possession you are at liberty to write to us, or to any manufacturer or dealer in Harness or Saddlery Goods with whom you do business, asking questions or sending orders, and either will know just what you want if you will mention "MOSEMAN BOOK" and give the "NUMBER" under the article you wish to know about, or mention the picture of the article you may have under consideration at the time.

In any event, **DO NOT CUT THIS BOOK!** but simply give "Number" of the article you wish to obtain.

We are, yours for business,

VETERINARY PREPARATIONS.

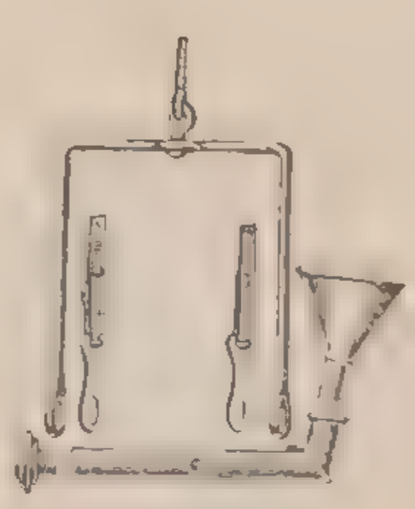
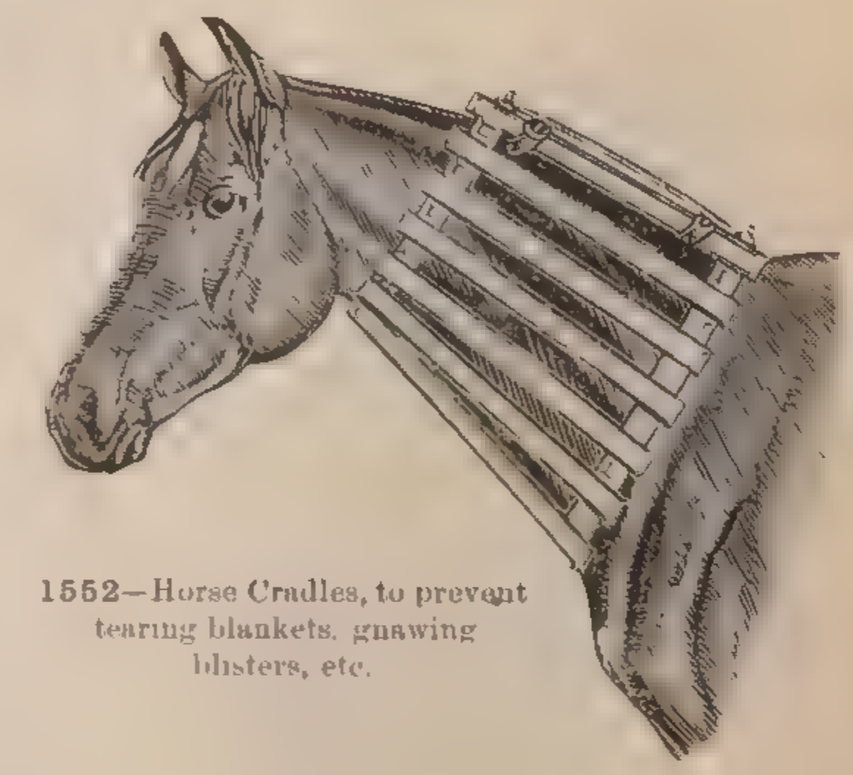
1551—Drenching Bit, Patented December 20th, 1888



Showing the Bit taken to pieces for cleansing purposes.



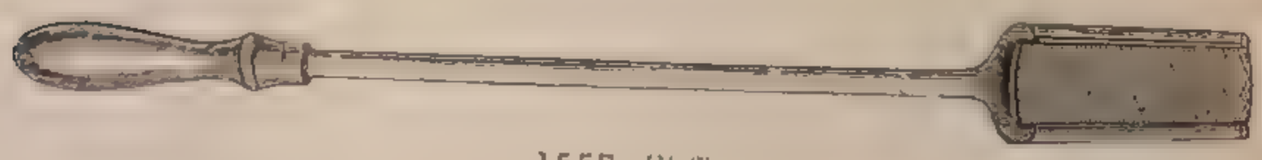
1552—Horse Cradles, to prevent tearing blankets, gnawing blisters, etc.

1553—Horse Medicine Bottle, made of Rubber.

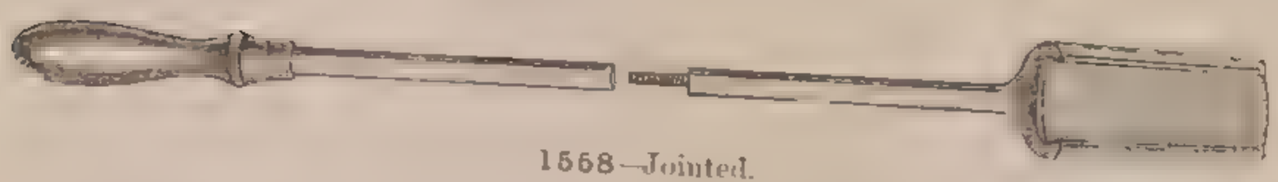
1554—Medicine Horn.

1555—Medicine Horn.

1556—Showing File and manner of fastening.



1557—Stiff.



1558—Jointed.

1559—Old Style.

This is not a *rasp* but a *Smooth File*, and is endorsed by a host of gentlemen of reputation in horse matters. The advantages of its adjustable feature will at once be seen. The file is cut on both sides, and held in the holder by a screw, and when one side becomes worn, simply by reversing it you have a new file. With the instructions which accompany each instrument, any one can use it with perfect success.

THE WOODNUTT MONOGRAM REMEDIES

Are put up by one of the most experienced horsemen in the United States, who has used them extensively in his capacity of both breeder and trainer for the past twenty years with the most satisfactory results. They have been on the market several months, and already command a strong lead among the most Valuable Horse Remedies They are used by all of the prominent Stock Farms in the United States from Vermont to Florida, and are a valuable contingent in the stables of all of the noted Trainers and Drivers, whose testimonials attest their excellence These Remedies have been adopted by the Fire Department of the City of Brooklyn, the Police Department of the City of New York, and several of the largest Express Companies. All the large Boarding, Sale and Livery establishments both use and recommend them to their patrons.

1571

1573

DR. A. H. DIXON'S
ALTERATIVE AND CONDITION POWDERS.

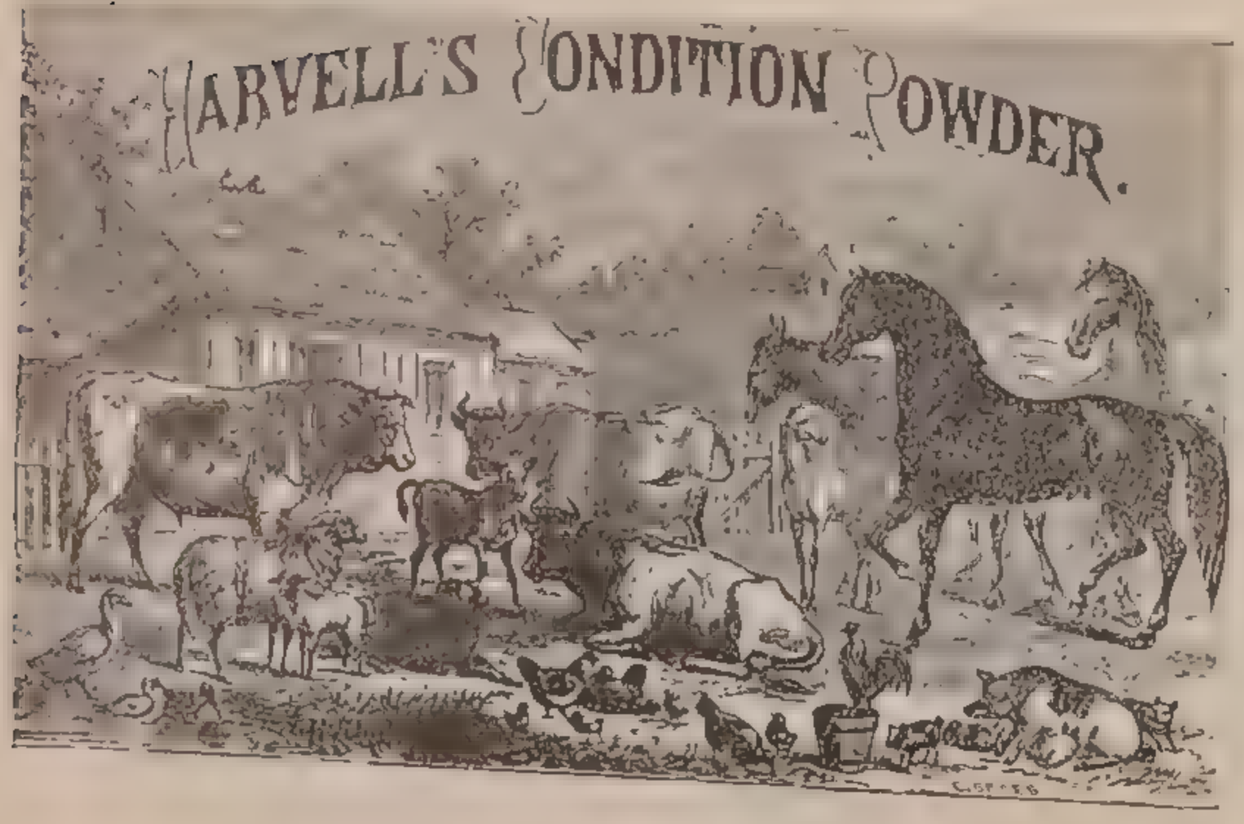
1574

These Powders prove an invaluable remedy in all cases of inflammatory action, Coughs, Colds, Epidemic Influenza, Bronchitis, Pneumonia, Heaves and the like, removing all Urinary Derangements, Œdema, or Swelling of the Legs, Cracked Heels and all Impurities of the Blood. An unfailing Specific for all Diseases of the Skin; they quickly produce a beautiful and blooming coat, and in the first stages of Acute Laminitis or Founder their administration is guaranteed to effect a speedy and lasting cure. They readily correct all Derangements of the Appetite and Digestion, arising either from Overwork, General Debility or Worms, requiring neither change of food nor cessation from work, and showing both in coat and condition, perfect health restored and preserved.

Recommended by Robert Bonner, Wm. L. Simmons, Edwin Thorne, Chas. Backman, Chas. Marvin, John Splan and others.

1572

1575



1576

THE BEST REMEDY EVER DISCOVERED FOR HORSES AND CATTLE.

THESE POWDERS may be given with great advantage in all cases of worms, loss of appetite, roughness of the hair or coat, stoppage of water and bowels, all coughs and colds, inflammation of the lungs and bowels, recent founders, swelling of the glands of the throat, horse distemper, hide bound, botts, scurvy, loss of cud, horn distemper, black tongue, etc., and also will backen the heaves, and in recent cases, effect a cure. In fact, there is no case of disease among Horses and Cattle where these valuable Powders are not called for, and by their timely administration will save the lives of many valuable animals.

SPECIMEN TESTIMONIALS.

From the Trafalgar Colliery Co. Ltd., near Drybrook, Gloucestershire.

June 20, 1885.
DEAR SIRS,—Your Embrocation has done good service since used for our underground horses.
Yours truly,
The Trafalgar Colliery Co. Ltd.,
FRANK BRAIN, Manager.

From Hon. W. F. Cody (Buffalo Bill), Wild West Co., Earl's Court, London.

June 24, 1887.
SIRS,—Since our arrival in London I have used on our stock daily your Embrocation, and unhesitatingly say it is the best remedy I ever handled; I commend it to horsemen always. Please send one dozen large bottles, and charge to account "Buffalo Bill's Wild West Co."
Very respectfully yours,
JAMES K. WHALEY,
Vet. Surgeon, B.B.W.W.Co.

From Messrs. Wm. Harding & Co., Railway Agents and Merchants, Leamington.

Nov. 9, 1876.
SIRS,—We have used Elliman's Royal Embrocation for many years with satisfactory results.
Yours truly,
WM. HARDING & Co.

From Major J. M. Browne, Master of South Staffordshire Hounds.

Fosseway, Lichfield, Oct. 17, 1879.
SIRS,—I find Elliman's Embrocation exceedingly good for Sprains and Cuts in Horses, and also for Cuts in Hounds' feet I shall strongly recommend it to all my friends.
Yours faithfully, J. M. BROWNE.

From His Grace the Duke of Rutland.

Belvoir, Grantham,
December 1, 1879
SIRS,—Elliman's Royal Embrocation is used in my stables; I think it very useful.

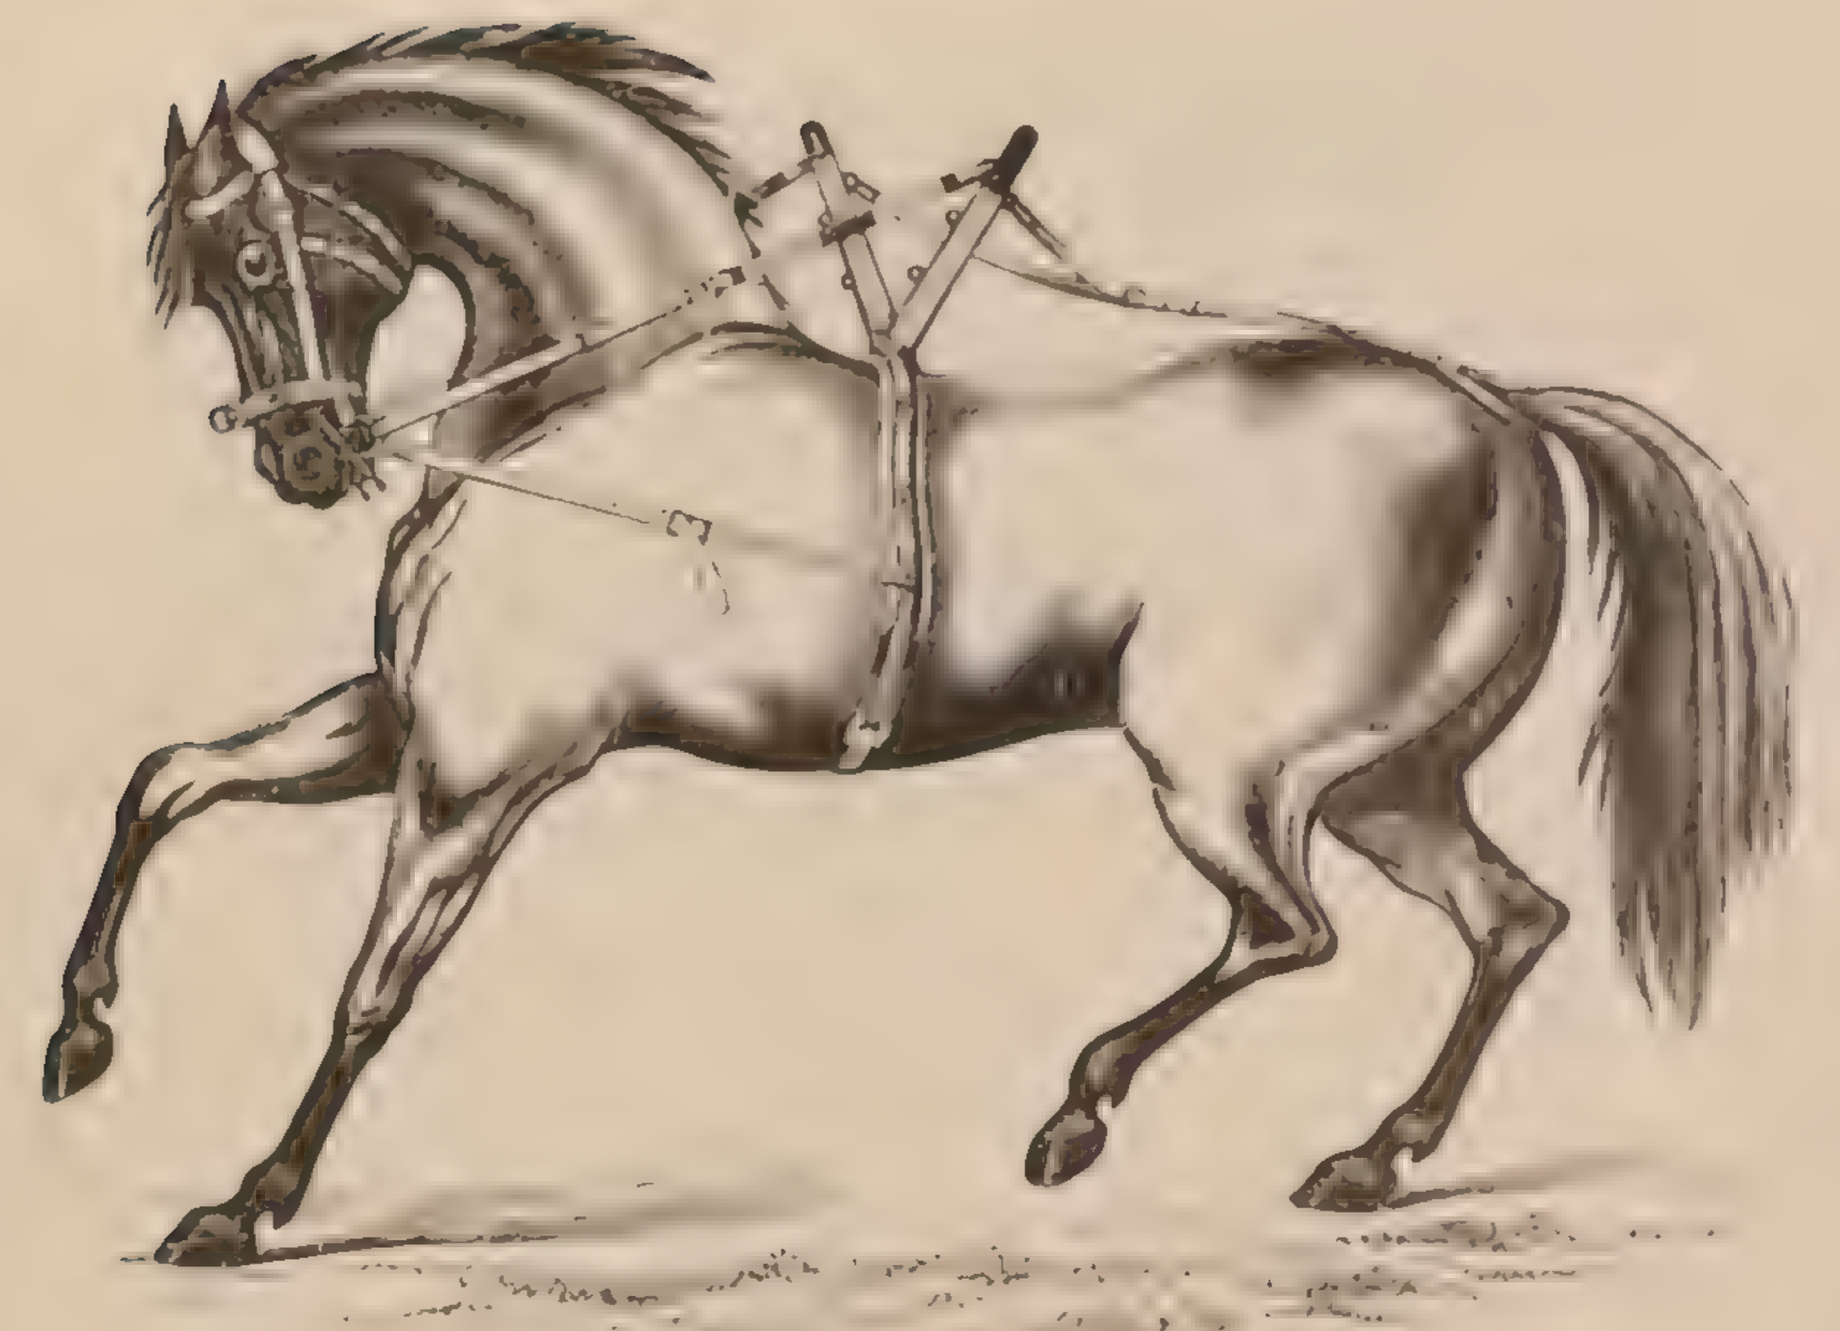
DUMB JOCKEY.



1895 Blackwell's Patent Whalebone and Rubber Dumb Jockey and Breaking Cav[illegible]

COLTS AND UNTRACTABLE HORSES broken by kind and gentle Treatment. Temperate and Easy Mouthed by **Blackwell's Patent Whalebone and Gutta Percha Jockeys,** with Rubber Springs of any length by tieing the inside cords, and for exercising in front, in boxes, and in stalls, on Led Horses to prevent falling and broken knees. They yield easily if a Colt rolls over on his back, and he is not injured as with the old Wood or Iron Jockey. Used by the first Breeders and Owners of Horses. Above 10,000 in use. The Dumb Jockey should not be kept on the Colt more than half an hour at a time, as he is apt to turn sulky and it can be put on several half hours in a day. With two dees on the side, the lunge reins are passed to the bit, and the horse may be driven or lunged round. This plan is adopted by most of the large breakers, and very little lungeing is done.

Breaking tackle of all kinds; Cavessons, Lunge reins, Improved Straight Mouth Slide Check Breaking Bits with Players from 1 to 4 lbs. By placing two bags of shot weighing about 1 lb. each on the rings of the bit, the weight is increased to 3 lbs. or 4 lbs. When this bit is used, the Colt will not allow the weight to rest upon the lower jaw, but puts his nose in, until the weight is thrown entirely on the head, by which means he forms a fine crest, without pulling at his mouth and spoiling it.

Double Spring Hooks to attach the bits to the Cavesson or Head collar in the stable, they save the Colt's ears being pulled about, as the Head-collar forms the bridle head.

BLACKWELL, Patent Saddlery and Harness Manufacturer to Her Majesty and the Prince of Wales.

PARIS: M. P. GERMAIN, Sellier, Harnacheur, 18 Rue Louis Le Grand, and to be had of all Saddlers.

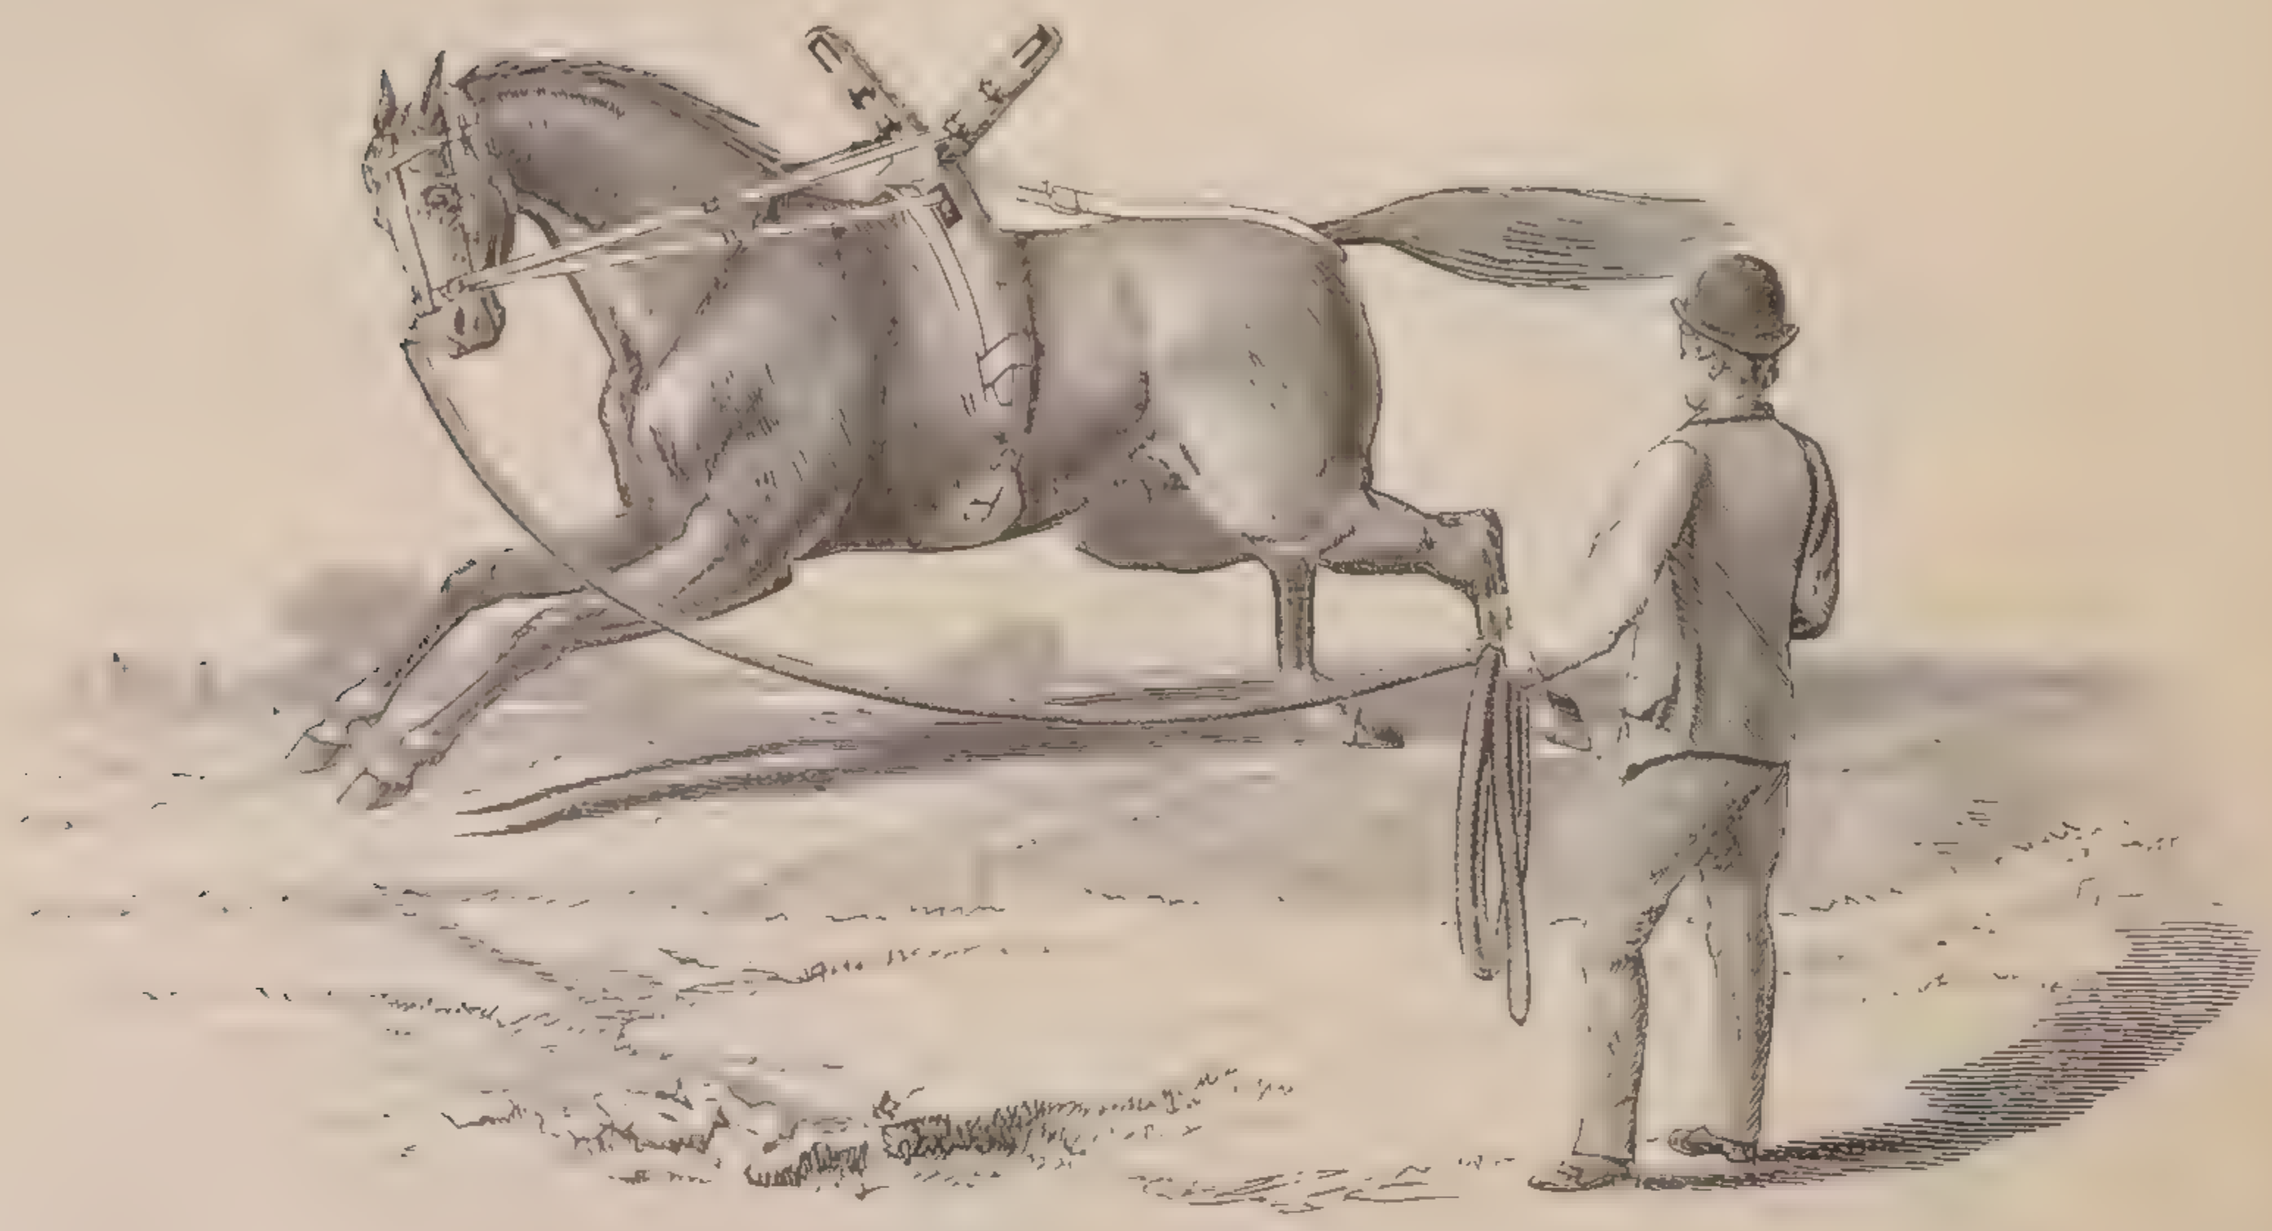
PRIZE MEDALS (1851, 1862) London; Dublin, 1865; and the only First-class Medal, Paris, 1855, for Saddlery, and Cologne, 1865.

C. M. MOSEMAN & BRO. Selling Agents for United States and Canadas, 126 & 128 Chambers St. N. Y.

1888

1887

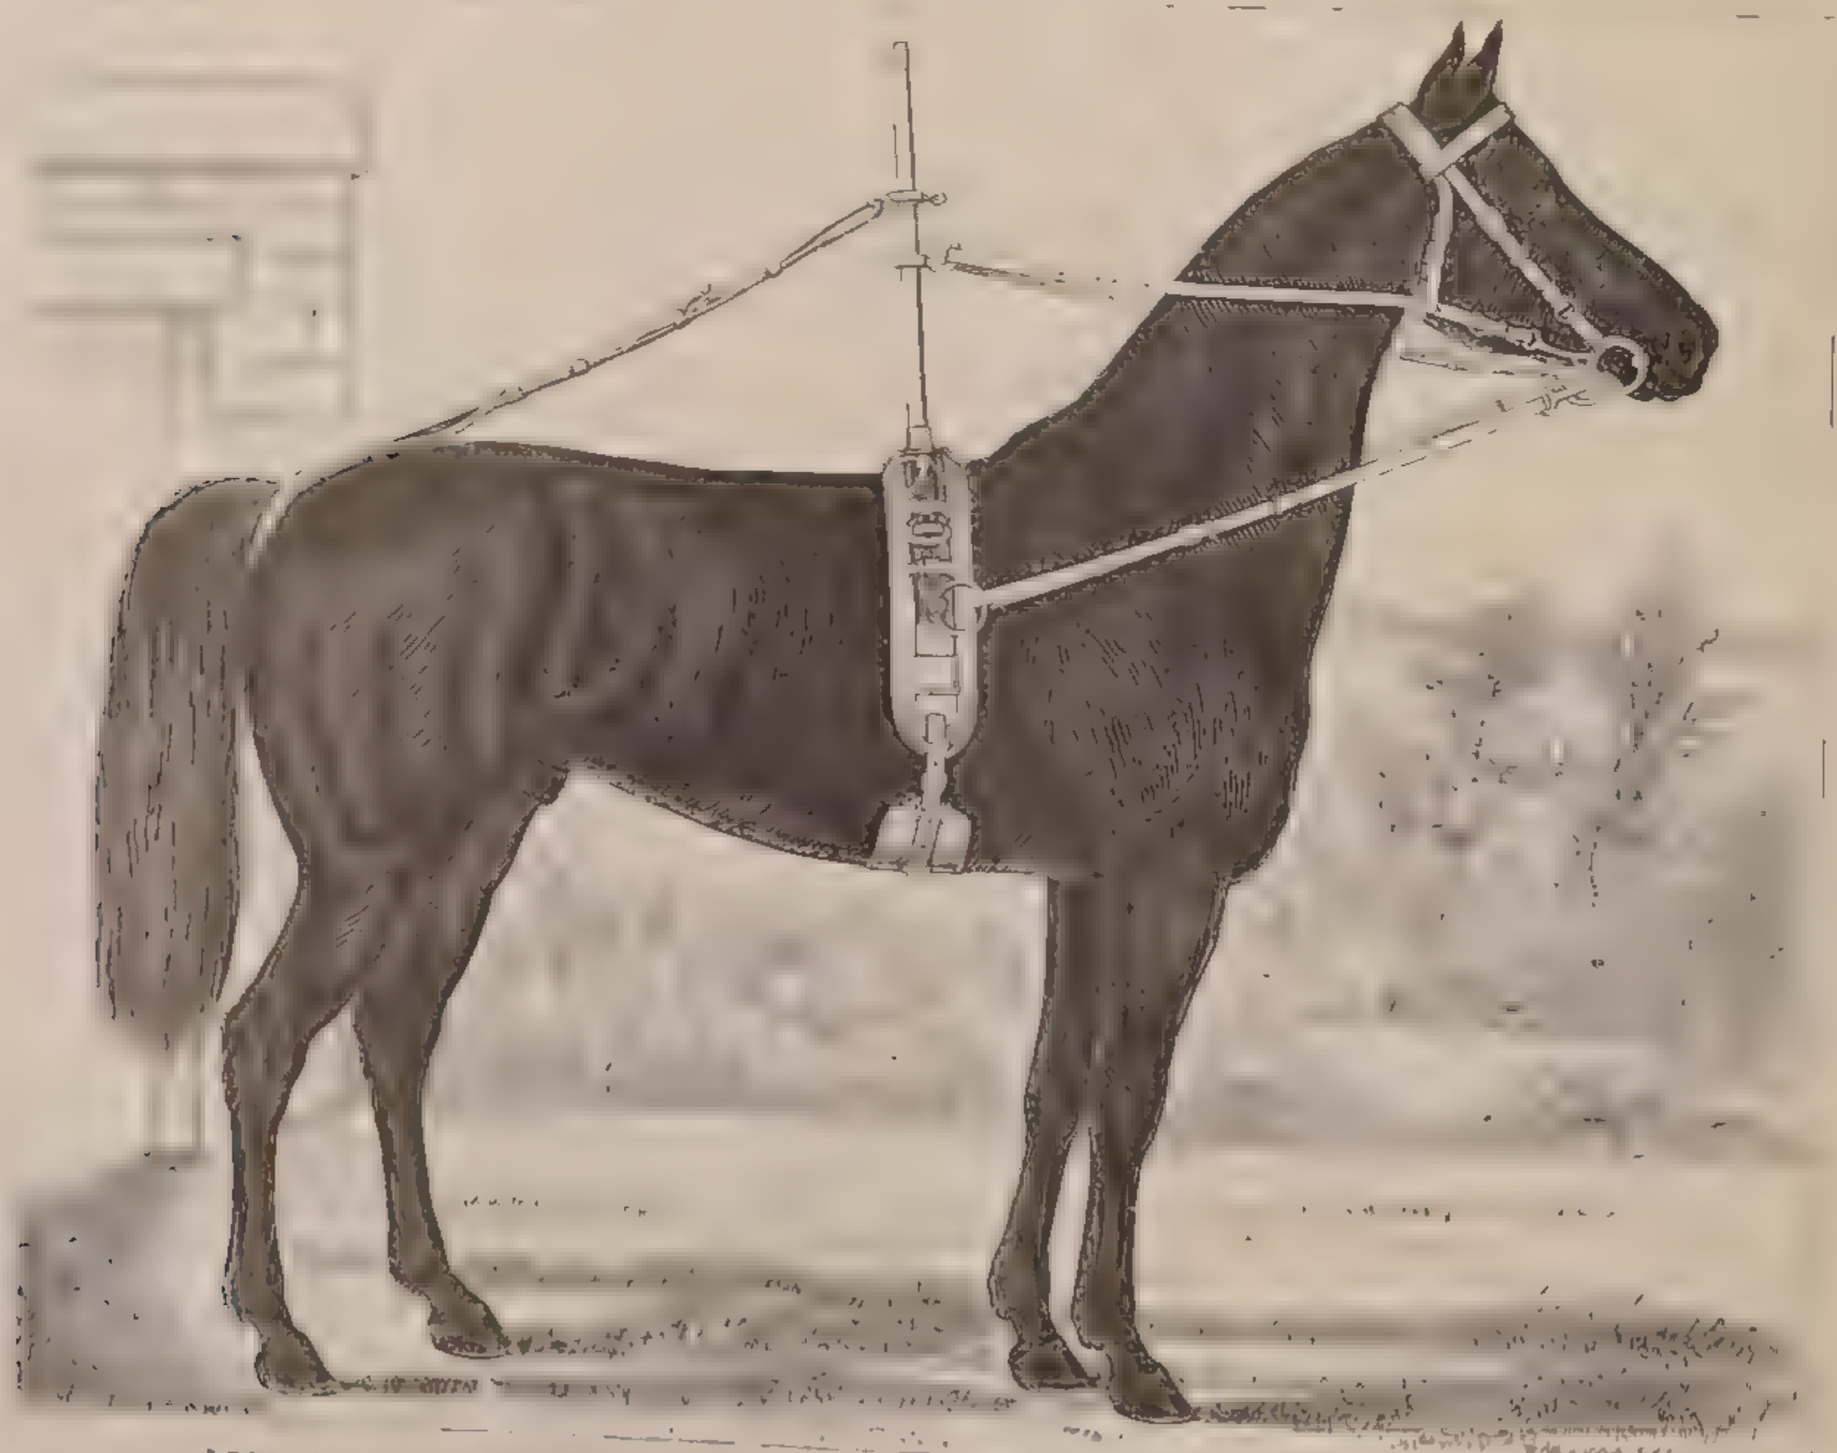
DUMB JOCKEY.



1698—Green's Patent Dumb Jockey, for Breaking and Training Colts to Saddle.

The reins from the Cavesson or bridle work around springs in the arms of the Dumb Jockey, and give and take with the motion of the colt's head, the same as if a boy was sitting on his back driving him

WRIGHT'S PATENT DEVELOPER.



1699—Wright's Patent Developer, for Bitting the Horse and developing style to Neck and Head.
Crupper and Reins adjustable on Steel Standard of Saddle.

BITTING HARNESS.

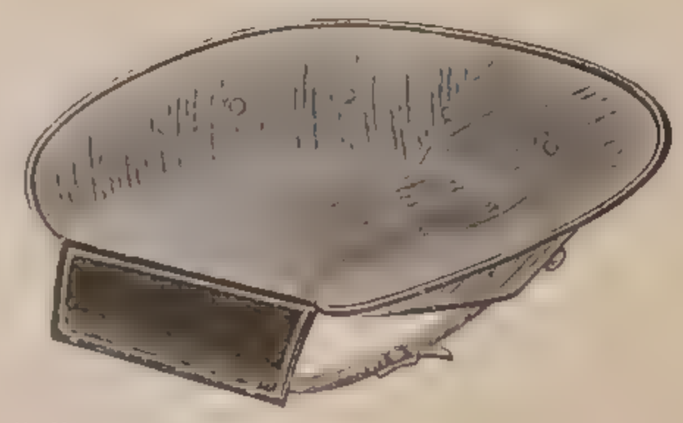
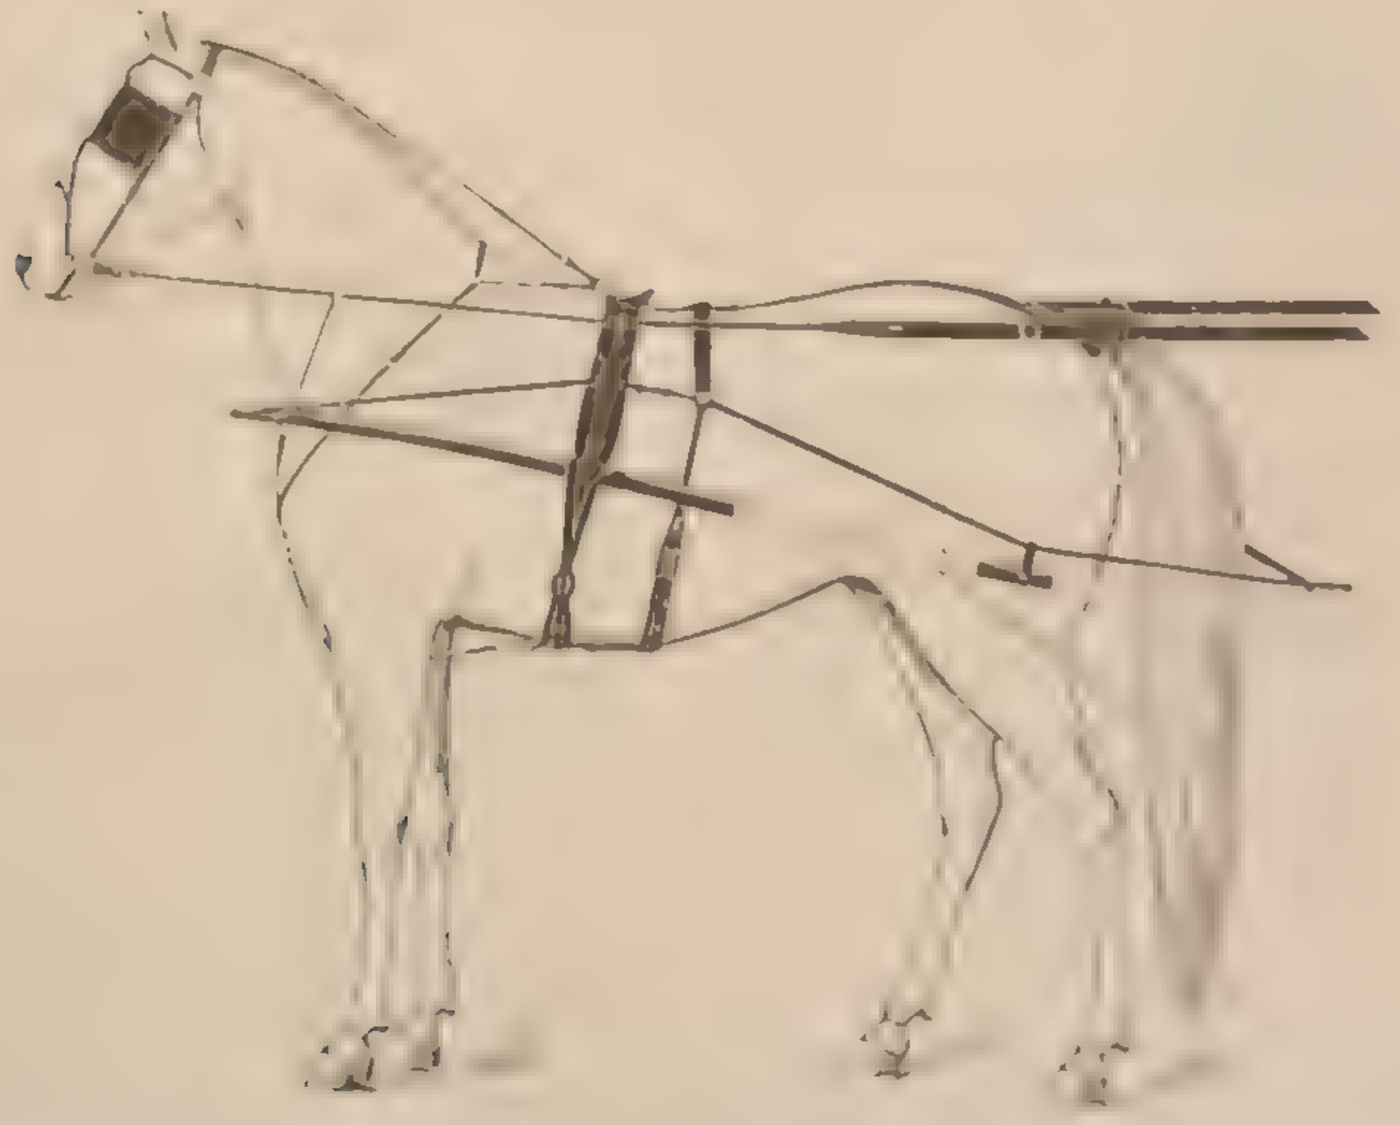
1717—Winker Hood, to use on the track to make horse see straight ahead only.



1718—Sulky Seat Cushion, with Pocket for carrying Weight.

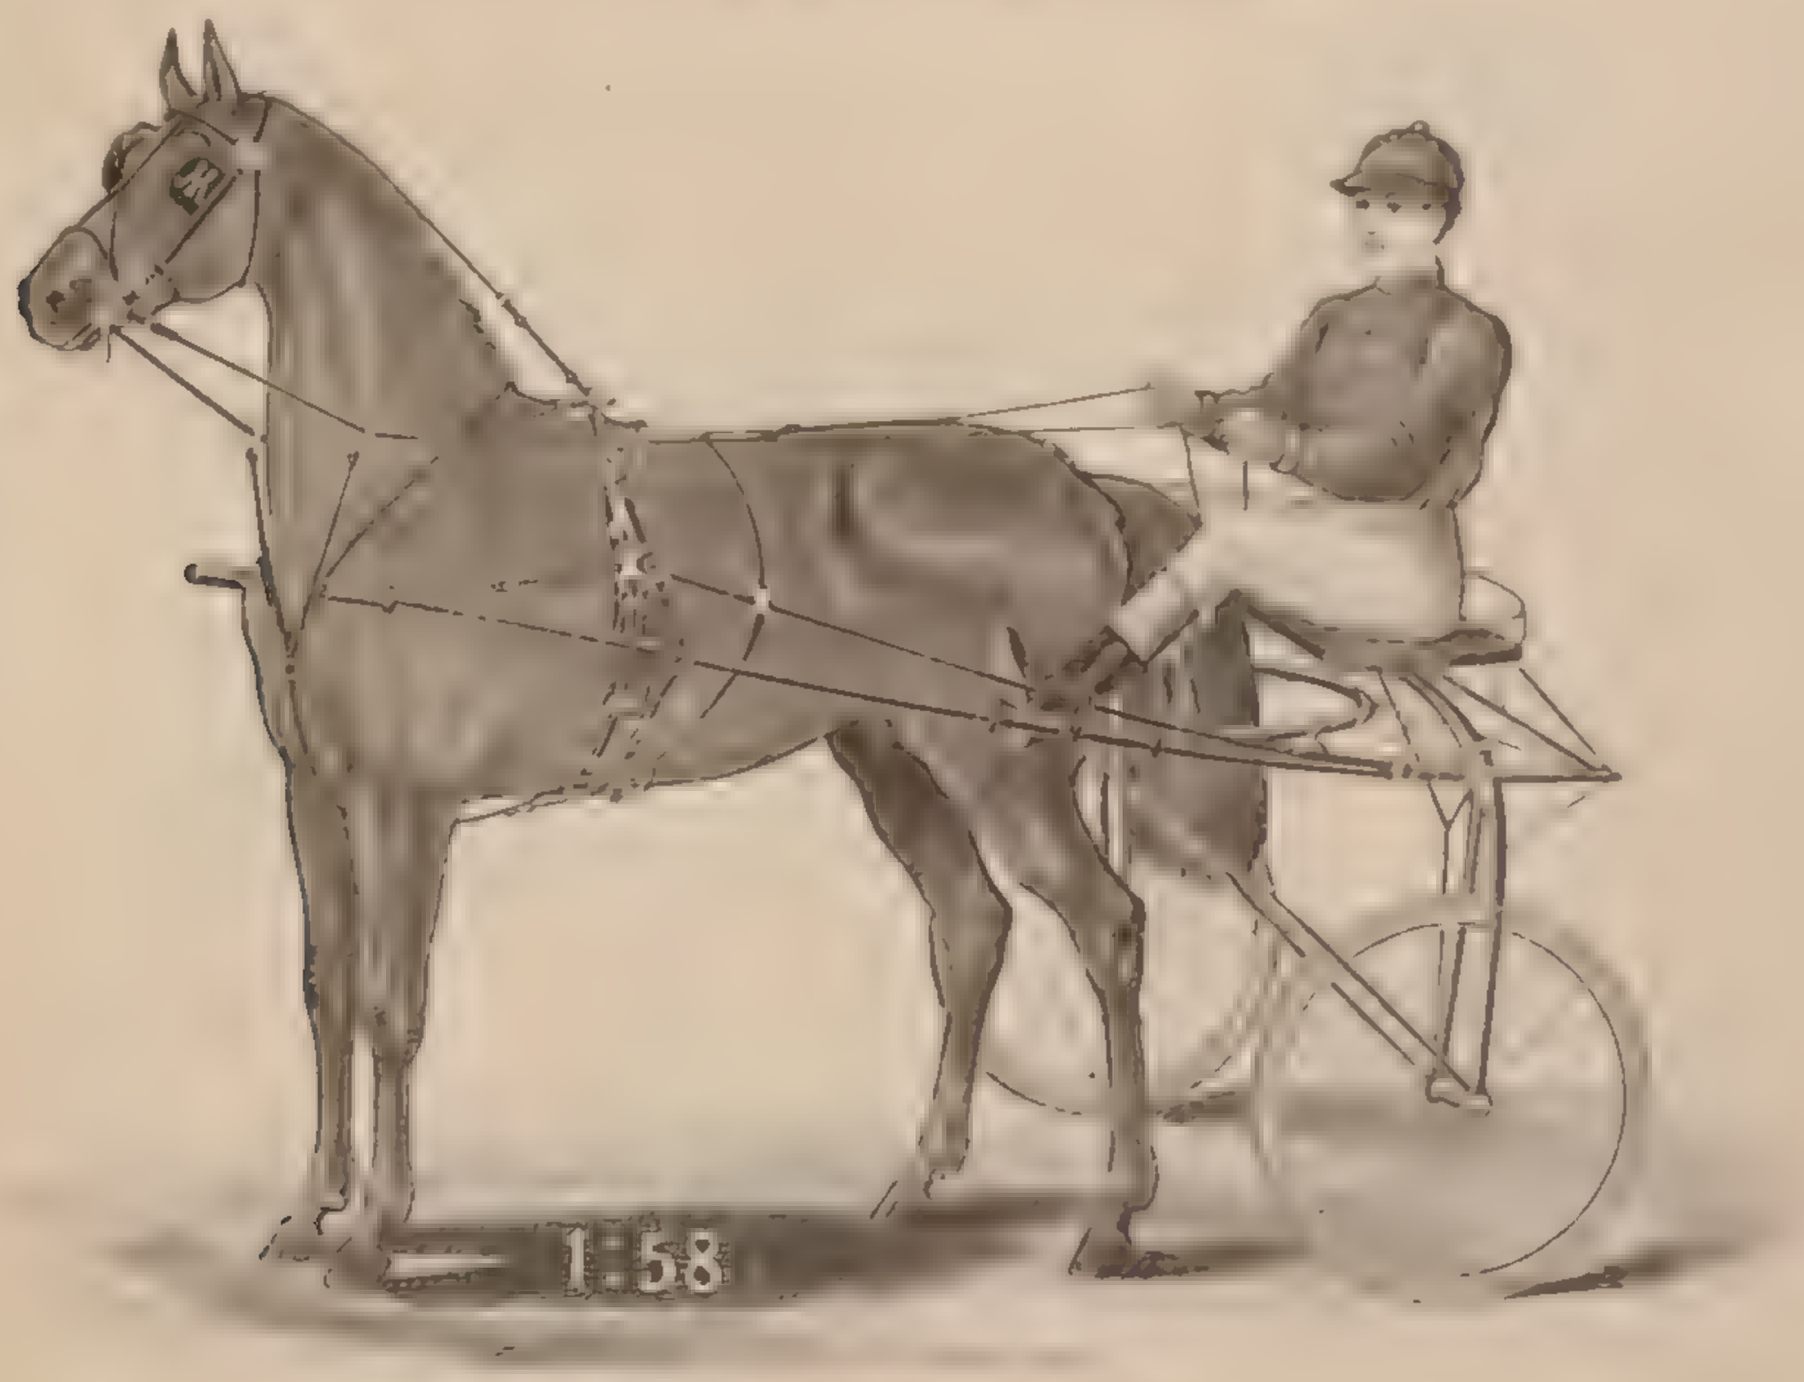
TWO MINUTE TRACK HARNESS.



1719 The Two Minute Track Harness

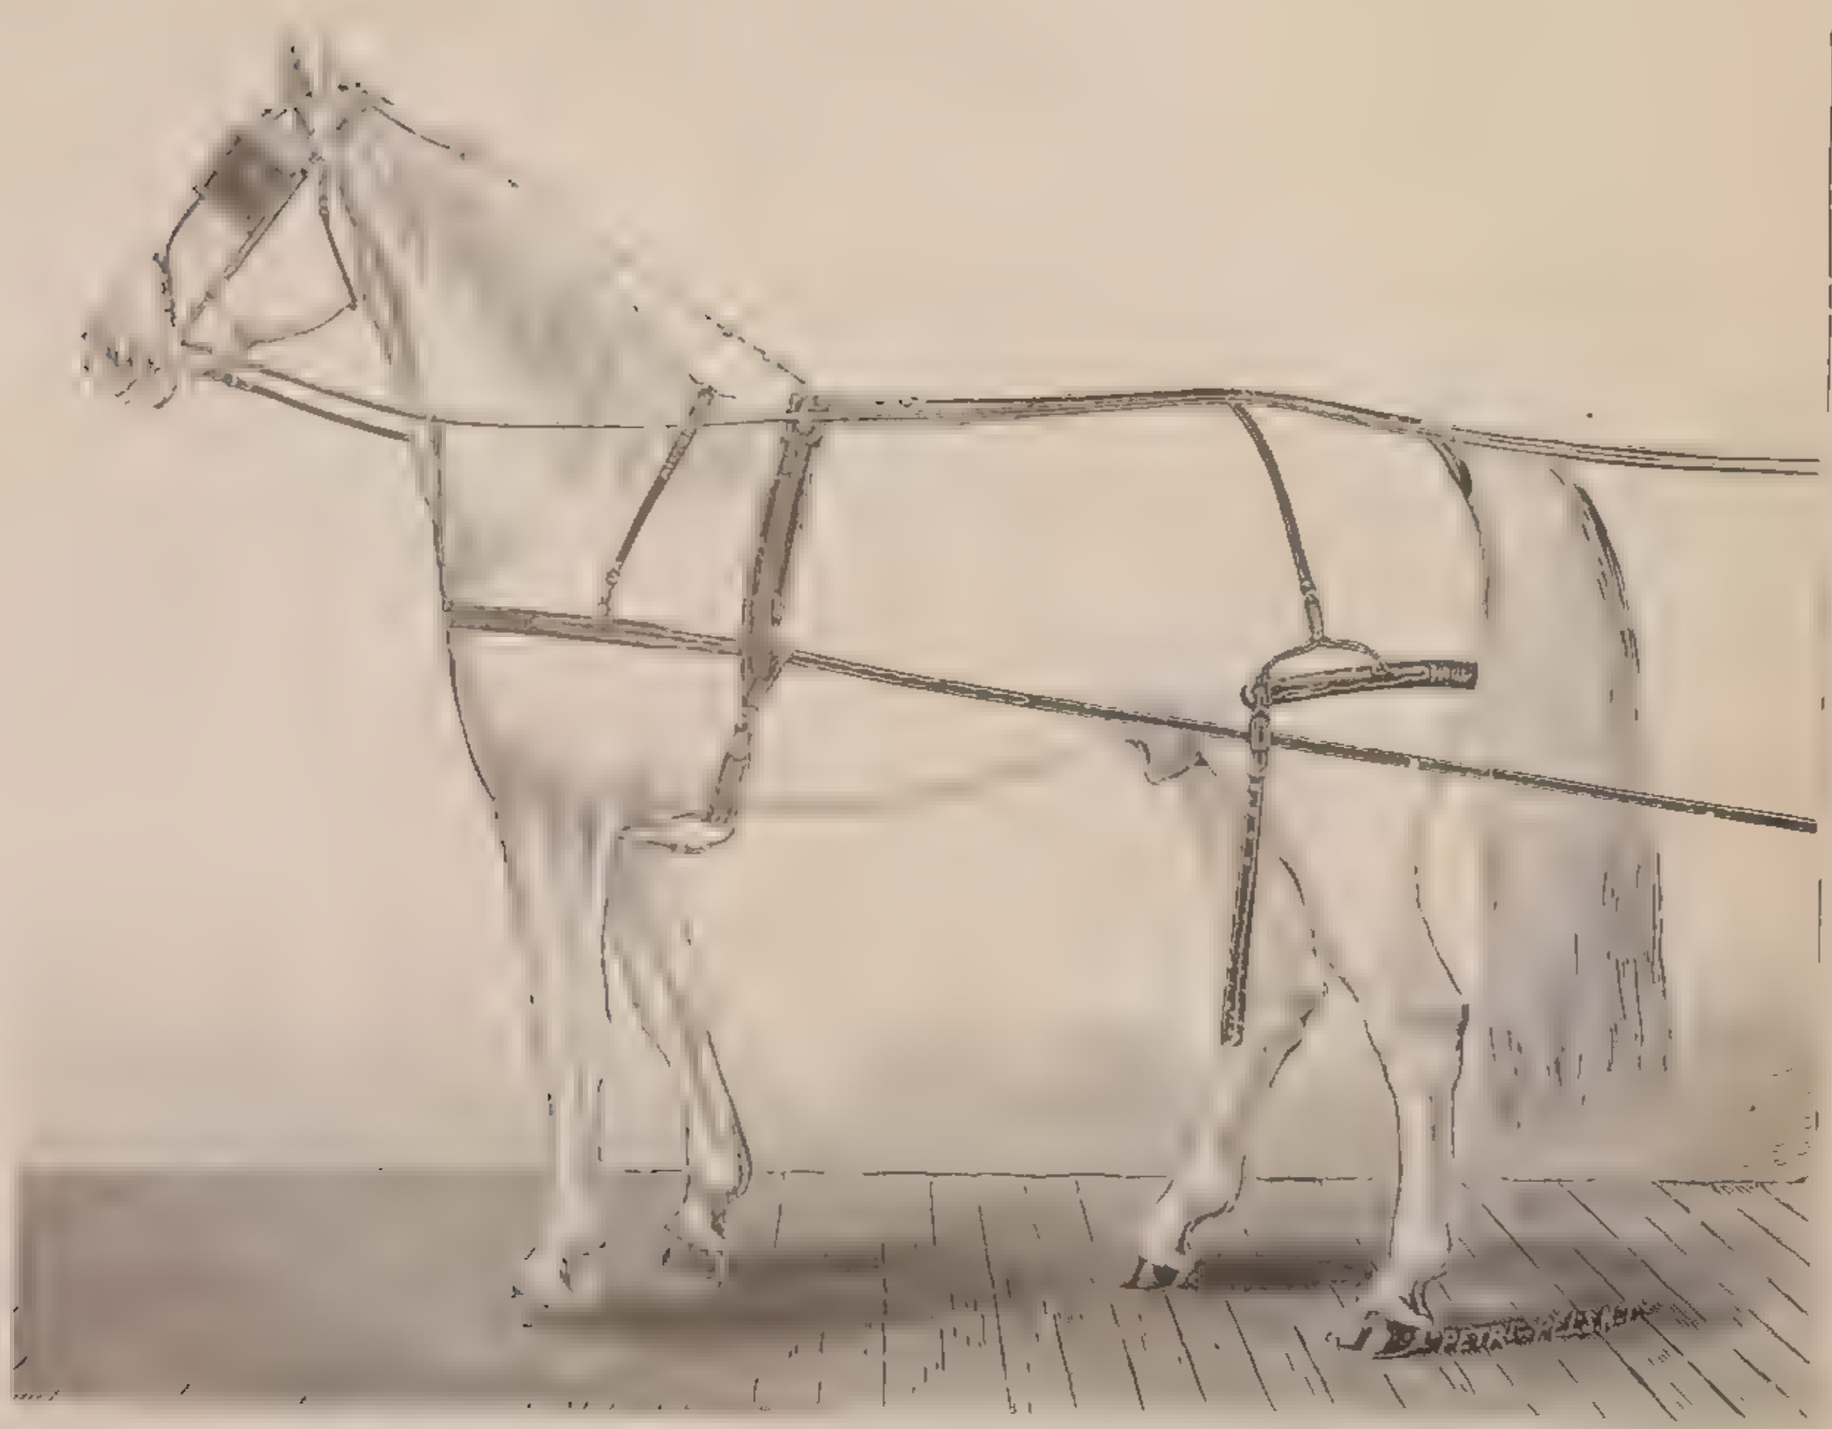
The Two Minute and 1:58 Track Harness. THEIR USES AND ADVANTAGES. One of the principal objects of this harness is to give the horse a [illegible] to impede his action in the [illegible] years and some attempts have been made to produce a harness that would bring these desired results, but it has never been done for there is no harness in existence in which the valuable principles are used which go into this harness. The principle seems a plain one, yet some may not fully have studied it. A hopelessly complex blended the great speed producing qualities of the harness. It took years of careful study, close observation and repeated trials to bring this harness to the point of excellence to which it has attained. However, it is the [illegible] many of the greatest drivers and trainers all over the world that a horse can trot faster hitched

merit and practical utility in many other ways than we can mention, many of which will be [illegible] on trial. In general, we know that a horse can be trained easier, brought to his speed quicker, trot or pace smarter and make faster time than with any other harness in existence.

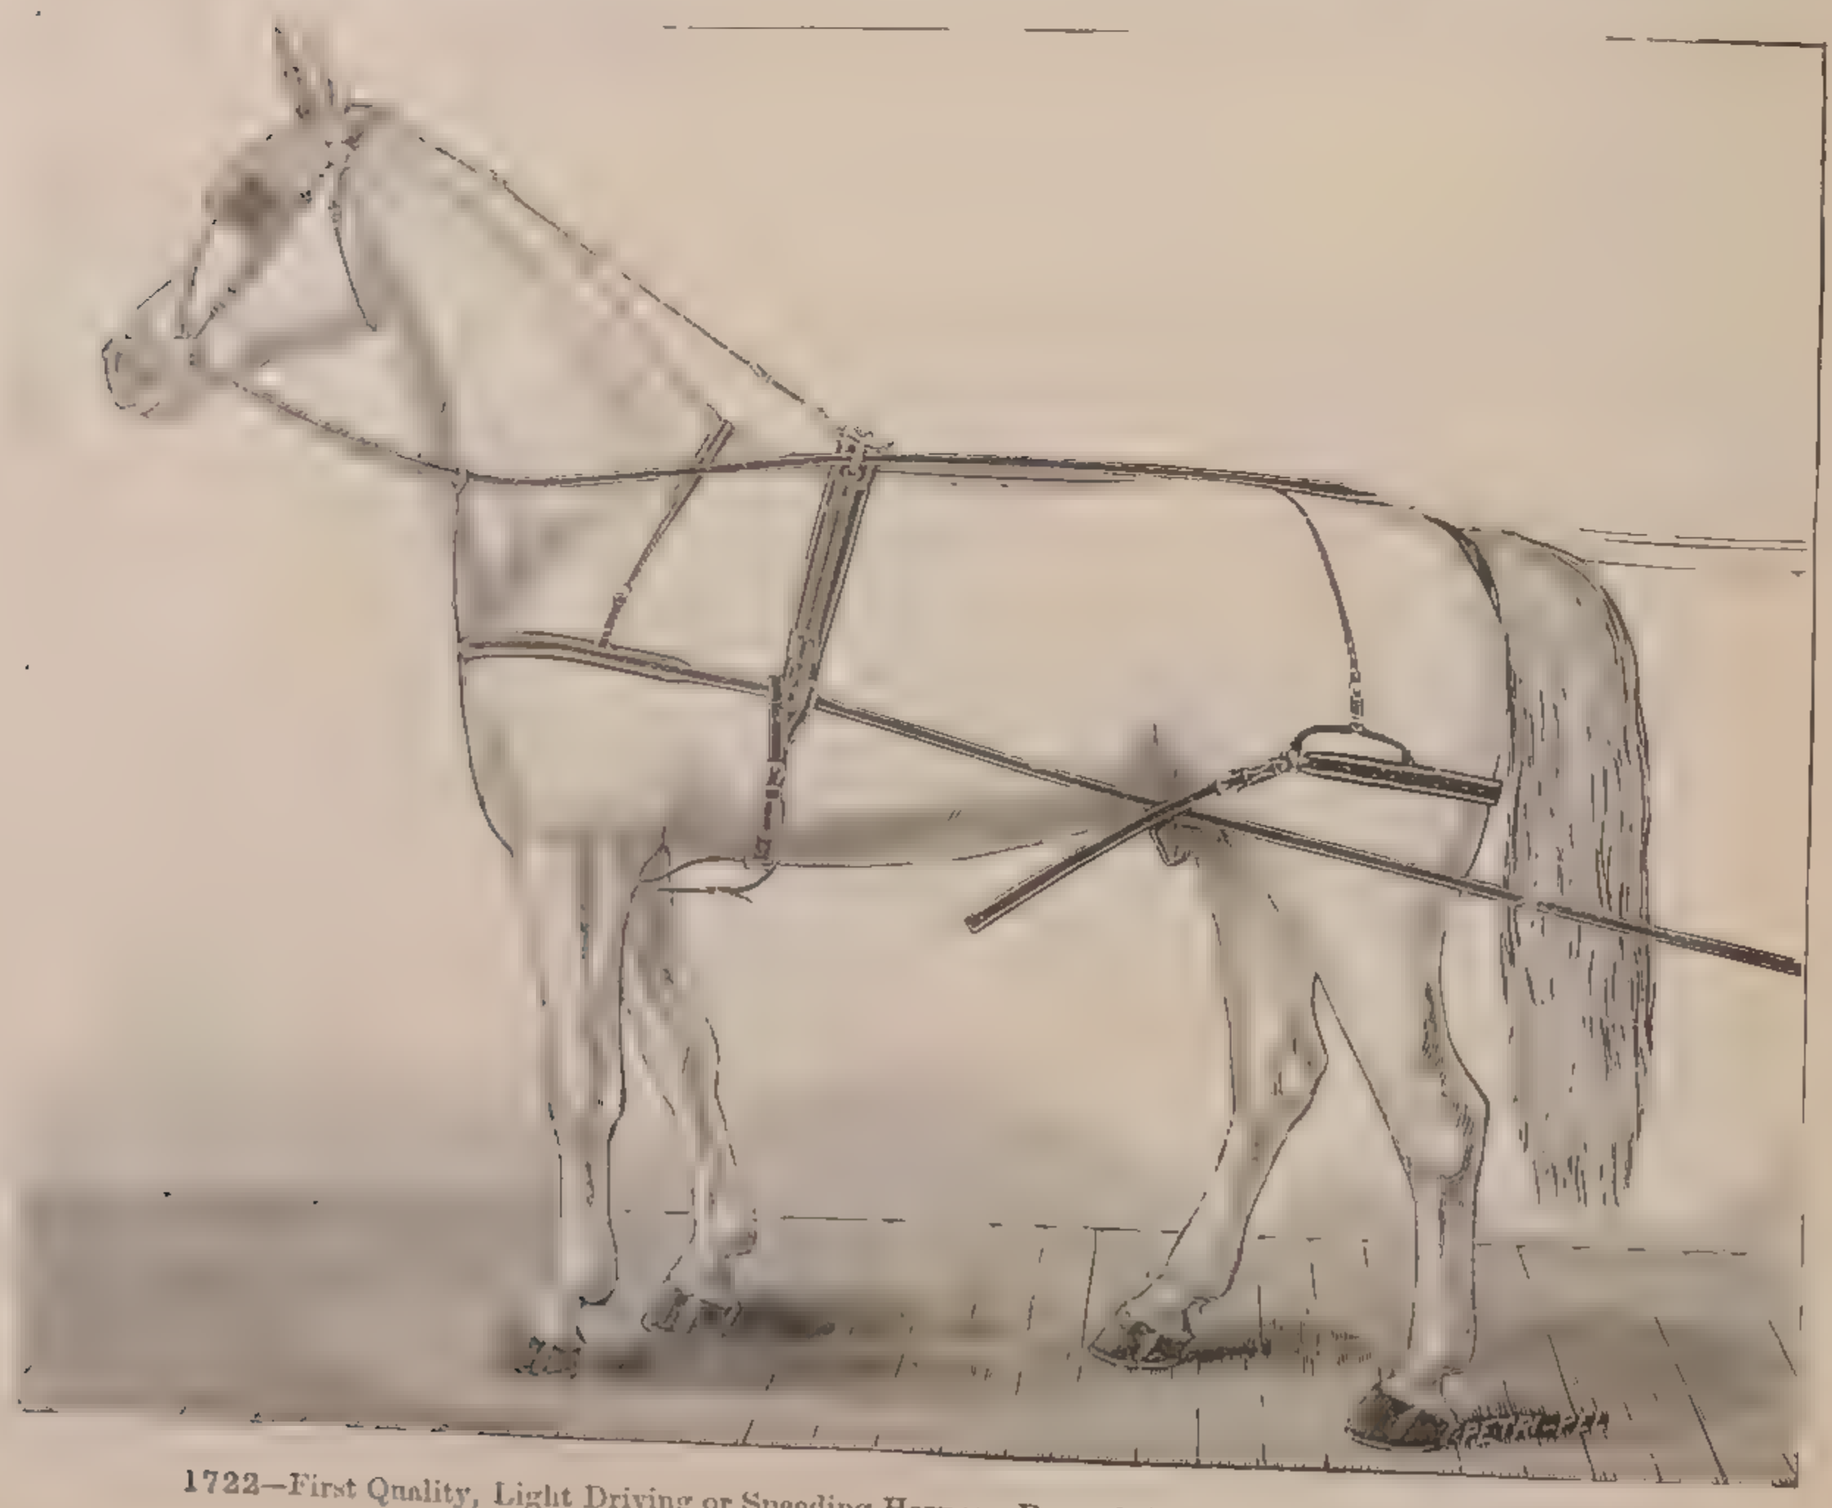


1720 - Bahn's New Pattern 1:58 Harness

SINGLE HARNESS.

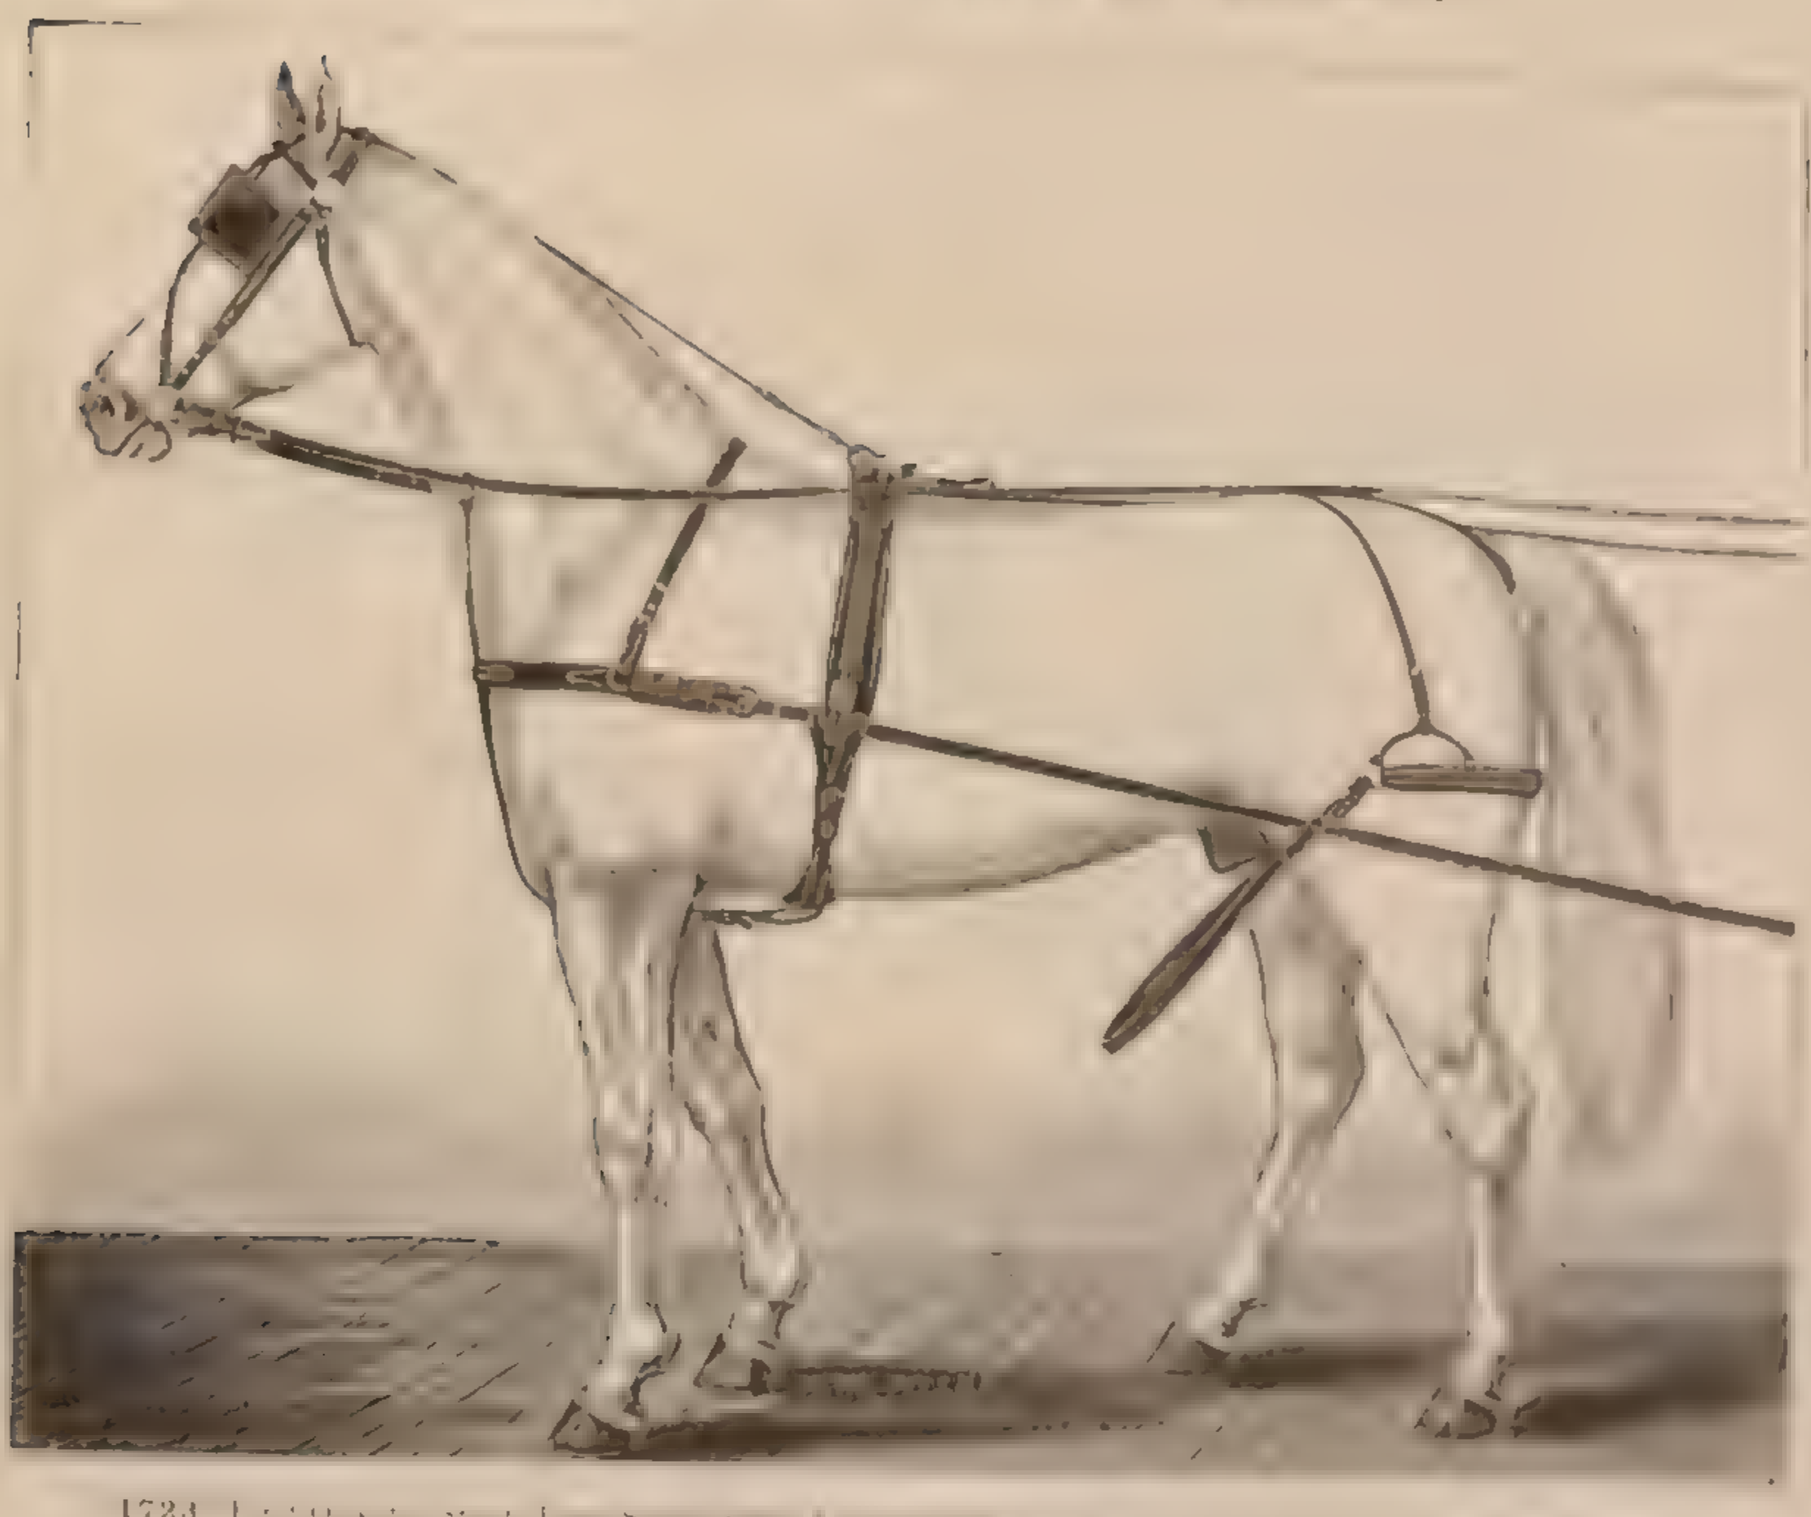


1721—First Quality, Light Driving or Speeding Harness, Traces Sewed on

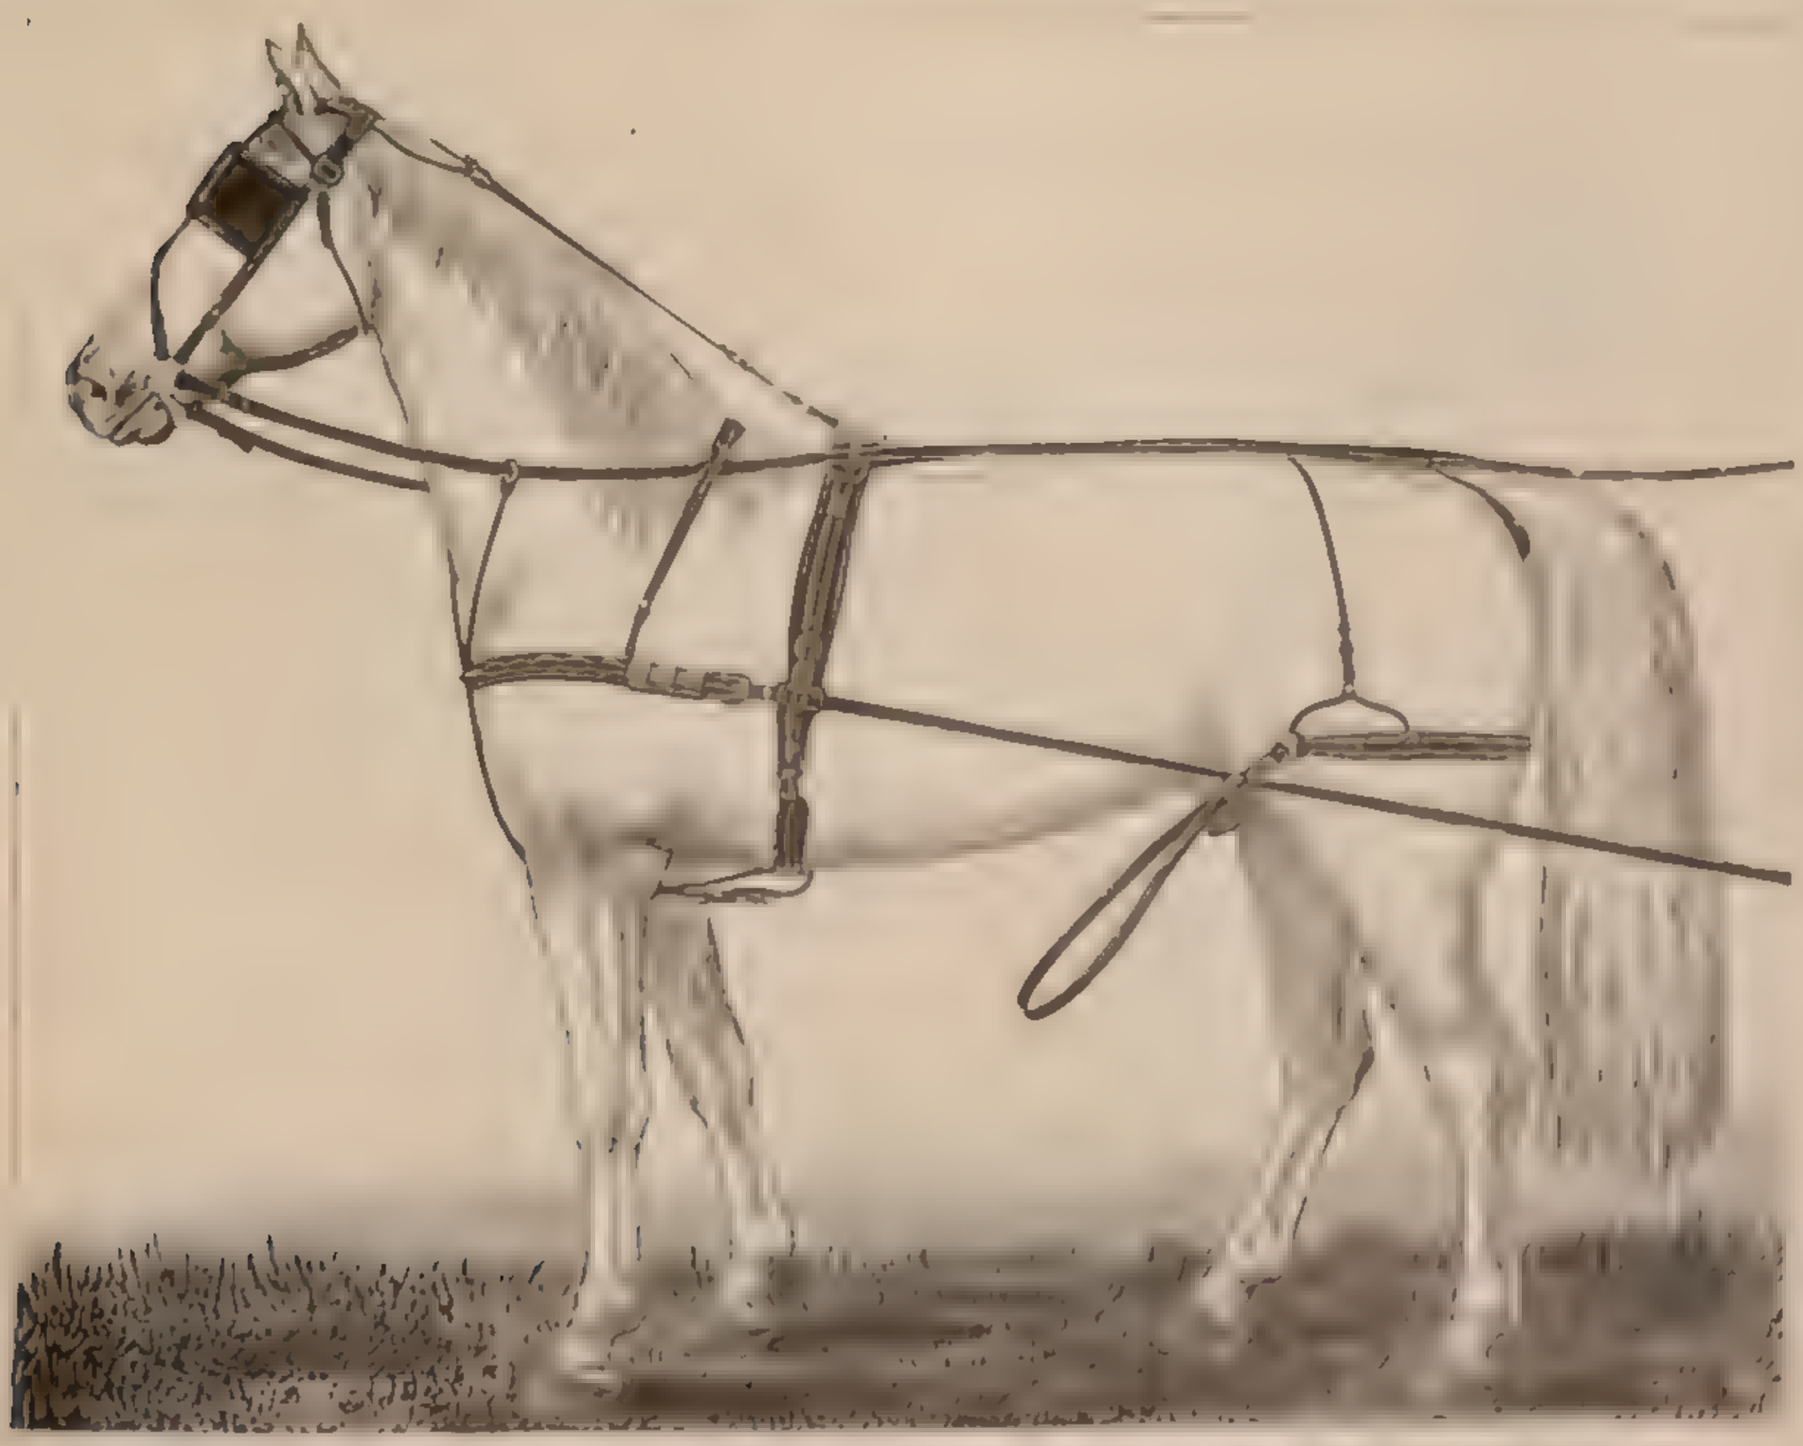


1722—First Quality, Light Driving or Speeding Harness, Enameled Leather Folds, Traces Sewed on.

SINGLE HARNESS.



1723



1724

SINGLE HARNESS.

SINGLE HARNESS.

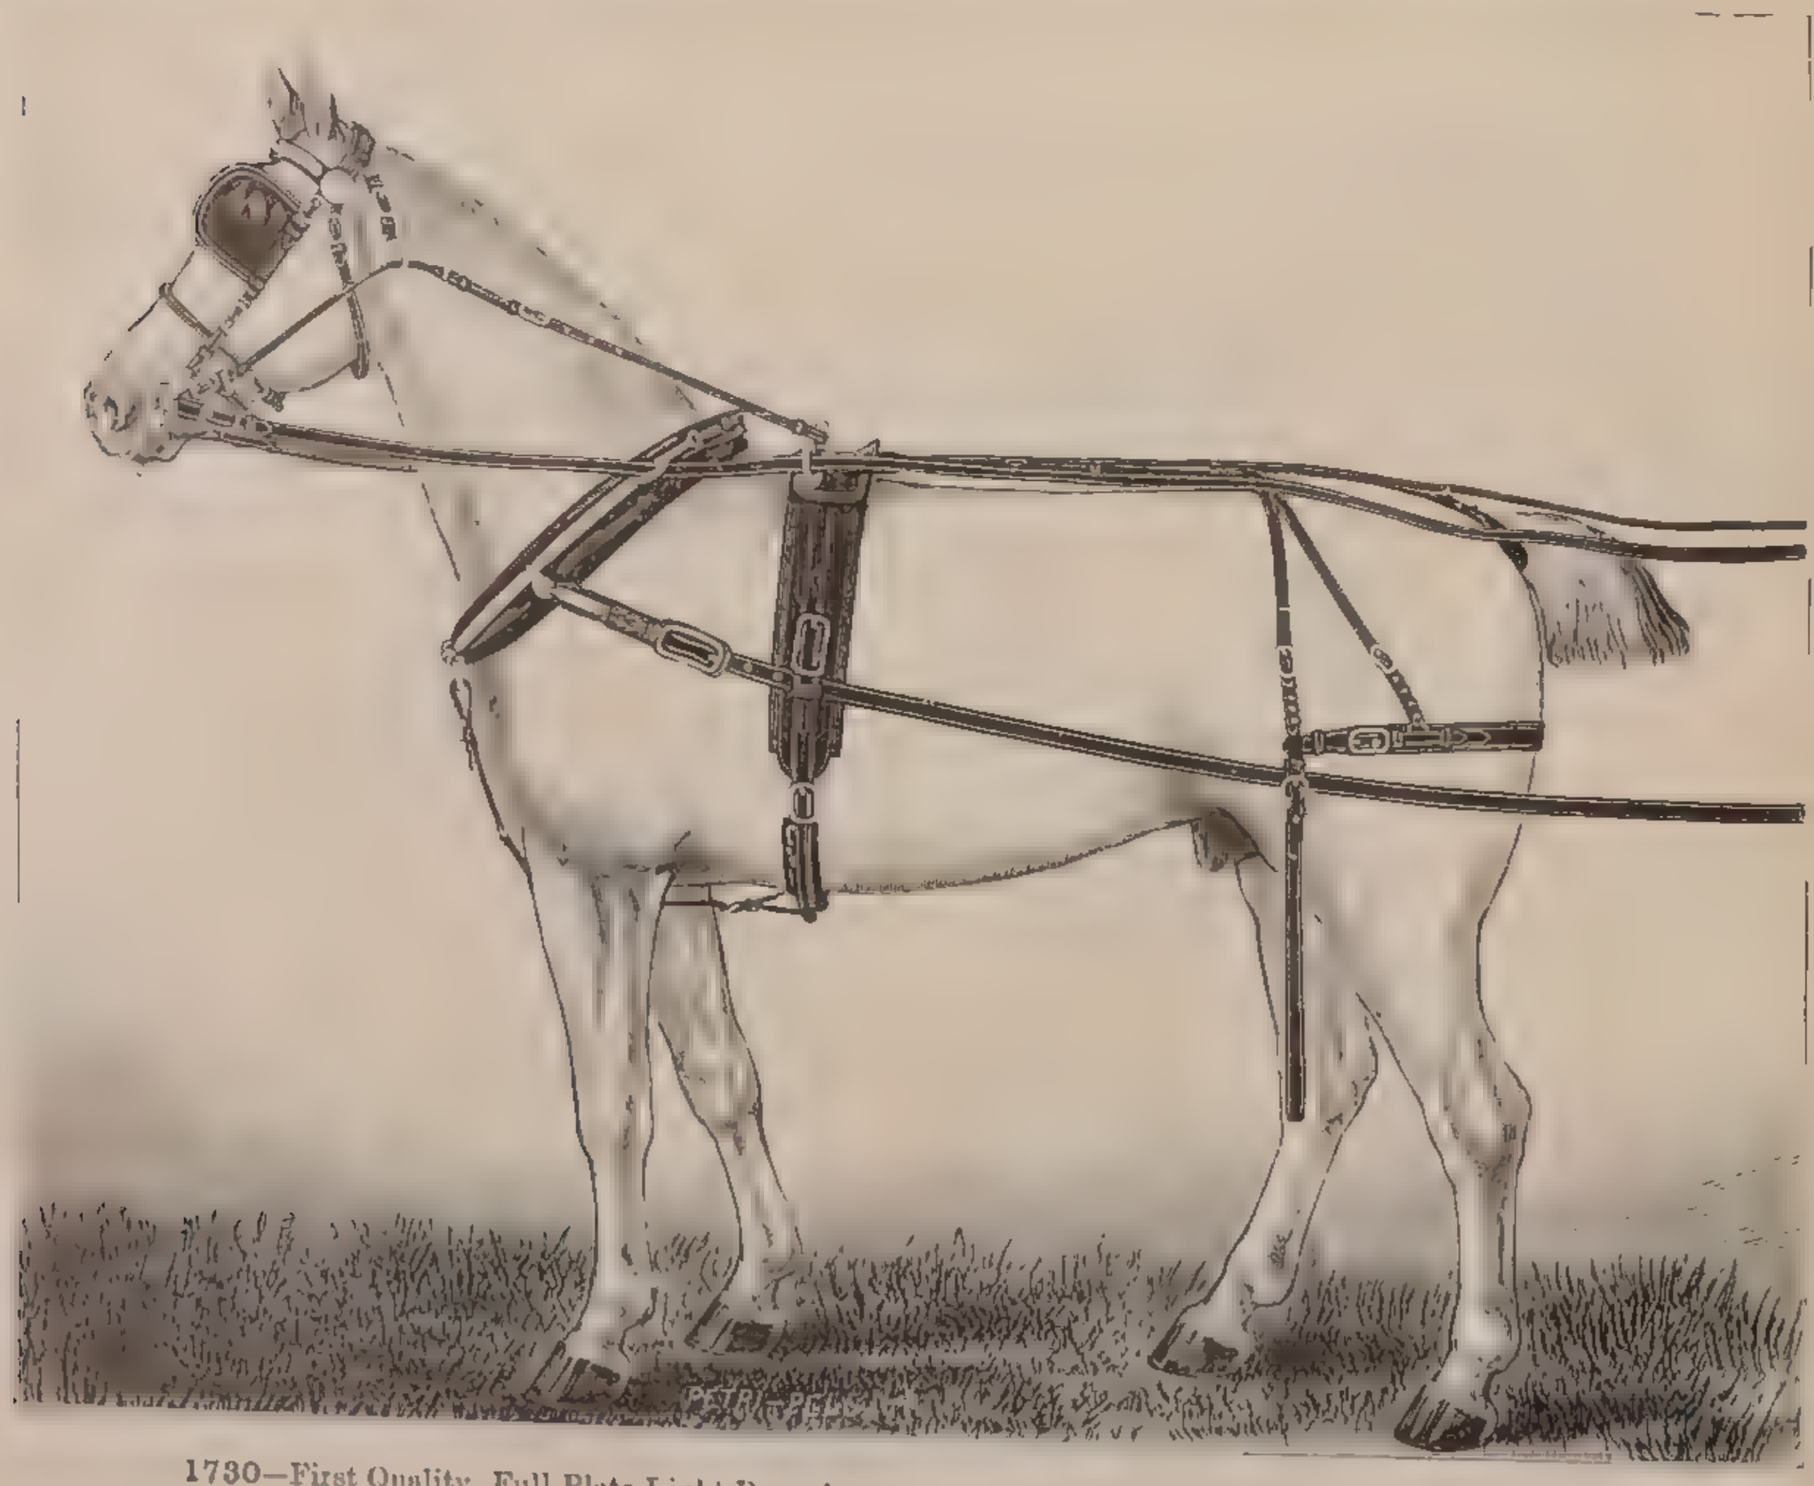
1729—First Quality, Full Plate Cart or Trap Harness.



1730—First Quality, Full Plate Light Brougham, Cart or Trap Harness, with Extension Breeching.

WOOL HARNESS COVERINGS.

1731

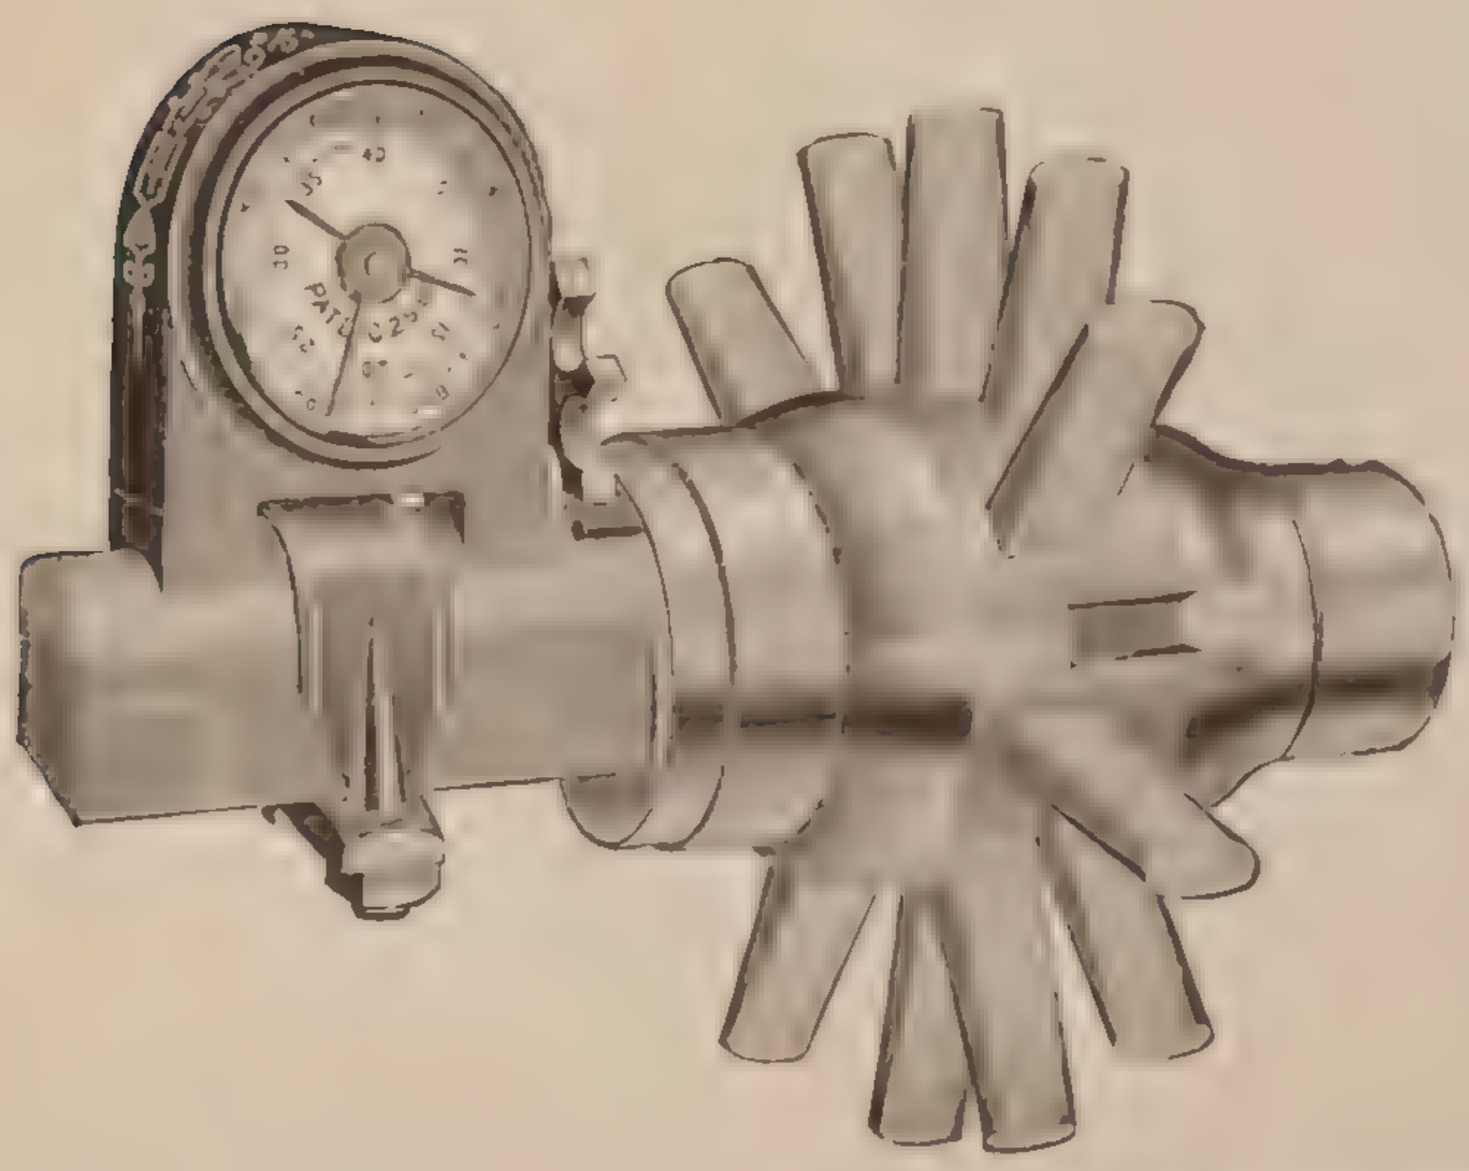
An easier and better way of putting Coverings on Harness, than when they are sewed on permanently. Then they become soiled, and when wet it is impossible to dry, and therefore very injurious. To obviate this we are manufacturing a Wool Covering in rolls o[illegible], and ten feet lengths for the trade, so that consumers can purchase the exact length and width they require for any part of the Harness. The edges are furnished with hooks so that they can be put on and taken off at pleasure.

FOLDING SEAT.

1732

It is the only practical third seat for a vehicle
[illegible]st, best and most artistic beauck on the market
[illegible]ost rest that will not slip away from the user.
[illegible]hild's chair which can be recklessly handled without injury to itself
[illegible]ildren, and forms an excellent substitute for a high [illegible]r at the table.
[illegible]strong, light, and portable seat for fishermen either on shore
[illegible]

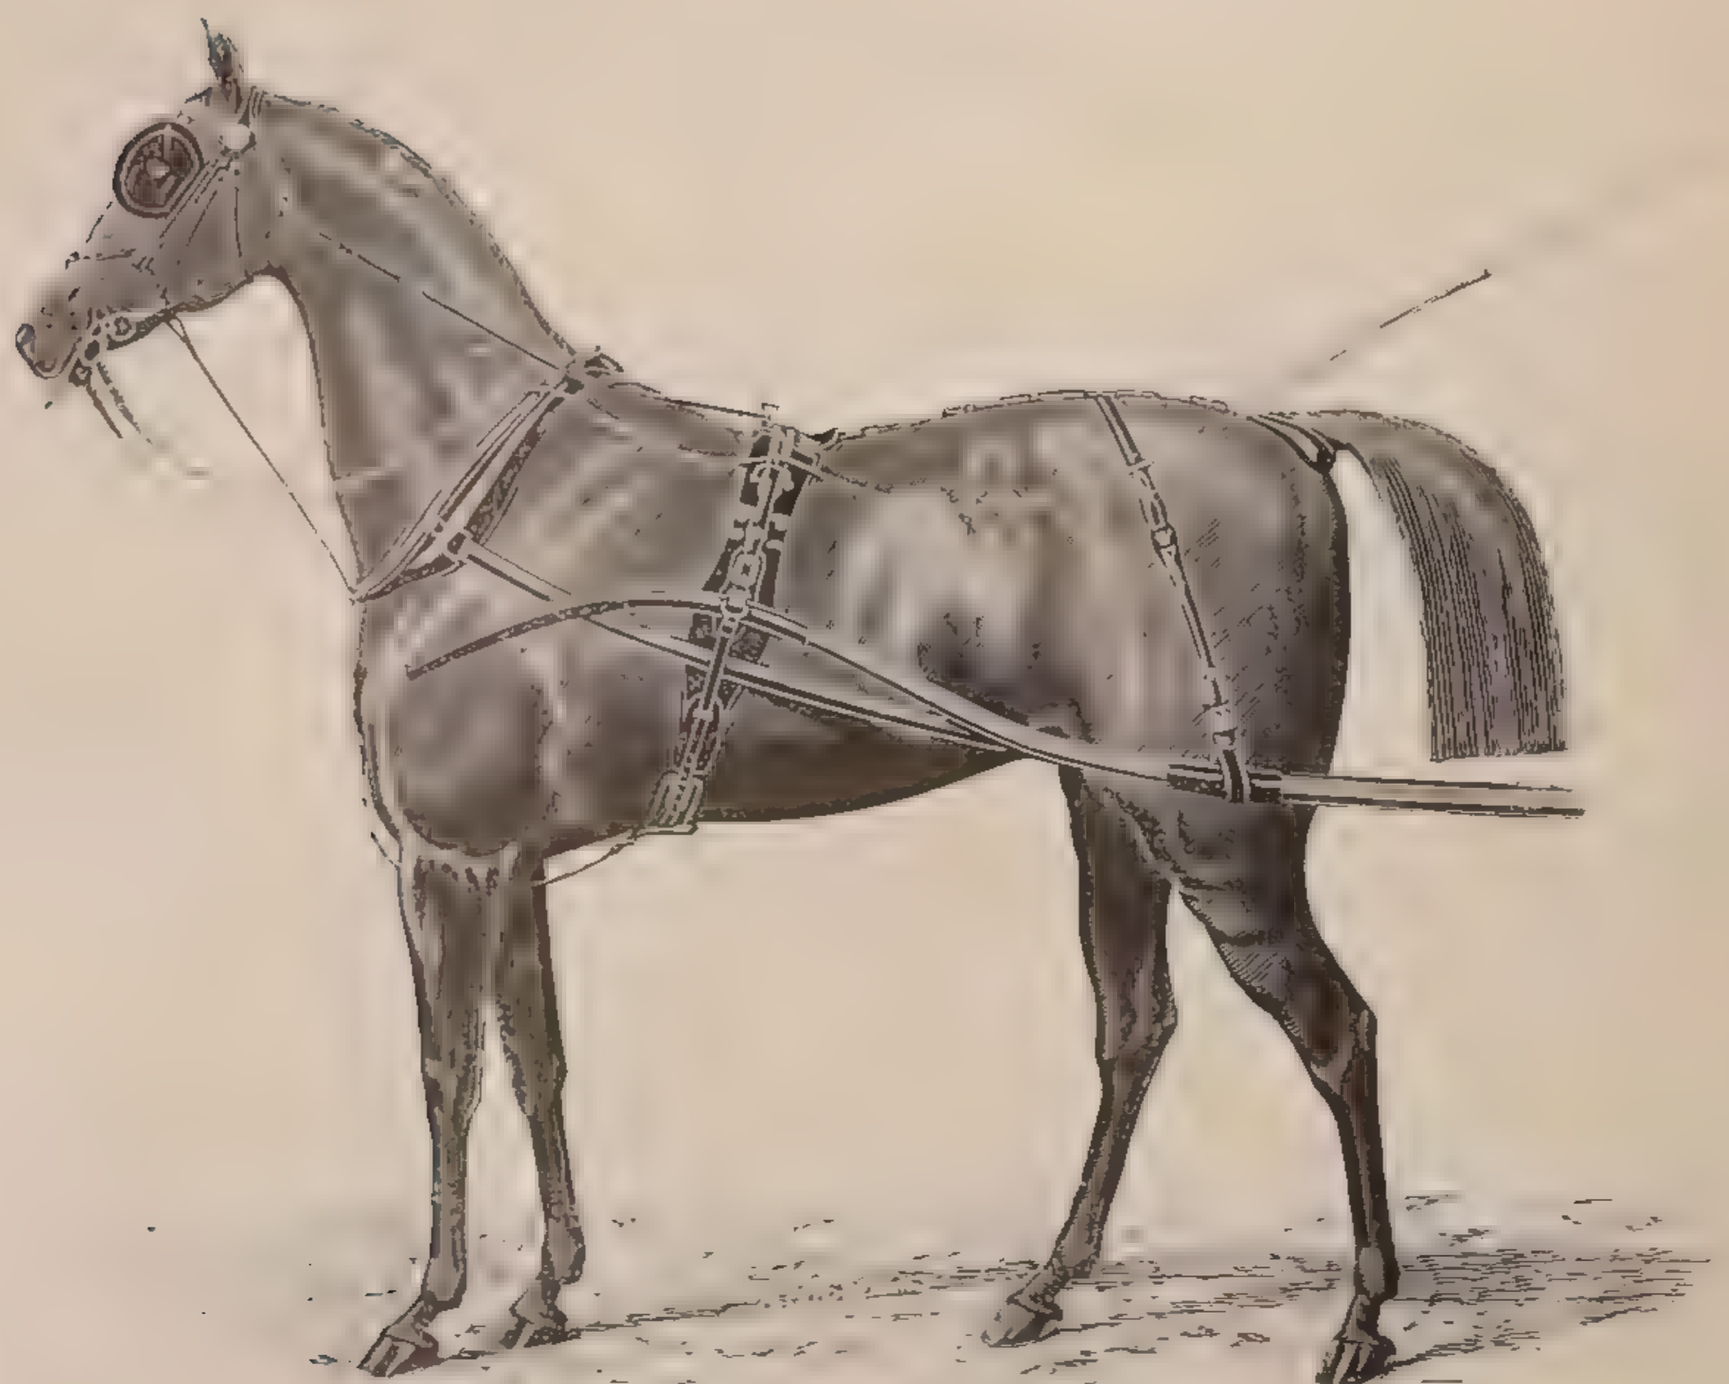
BELL ODOMETER, FOR CARRIAGES.



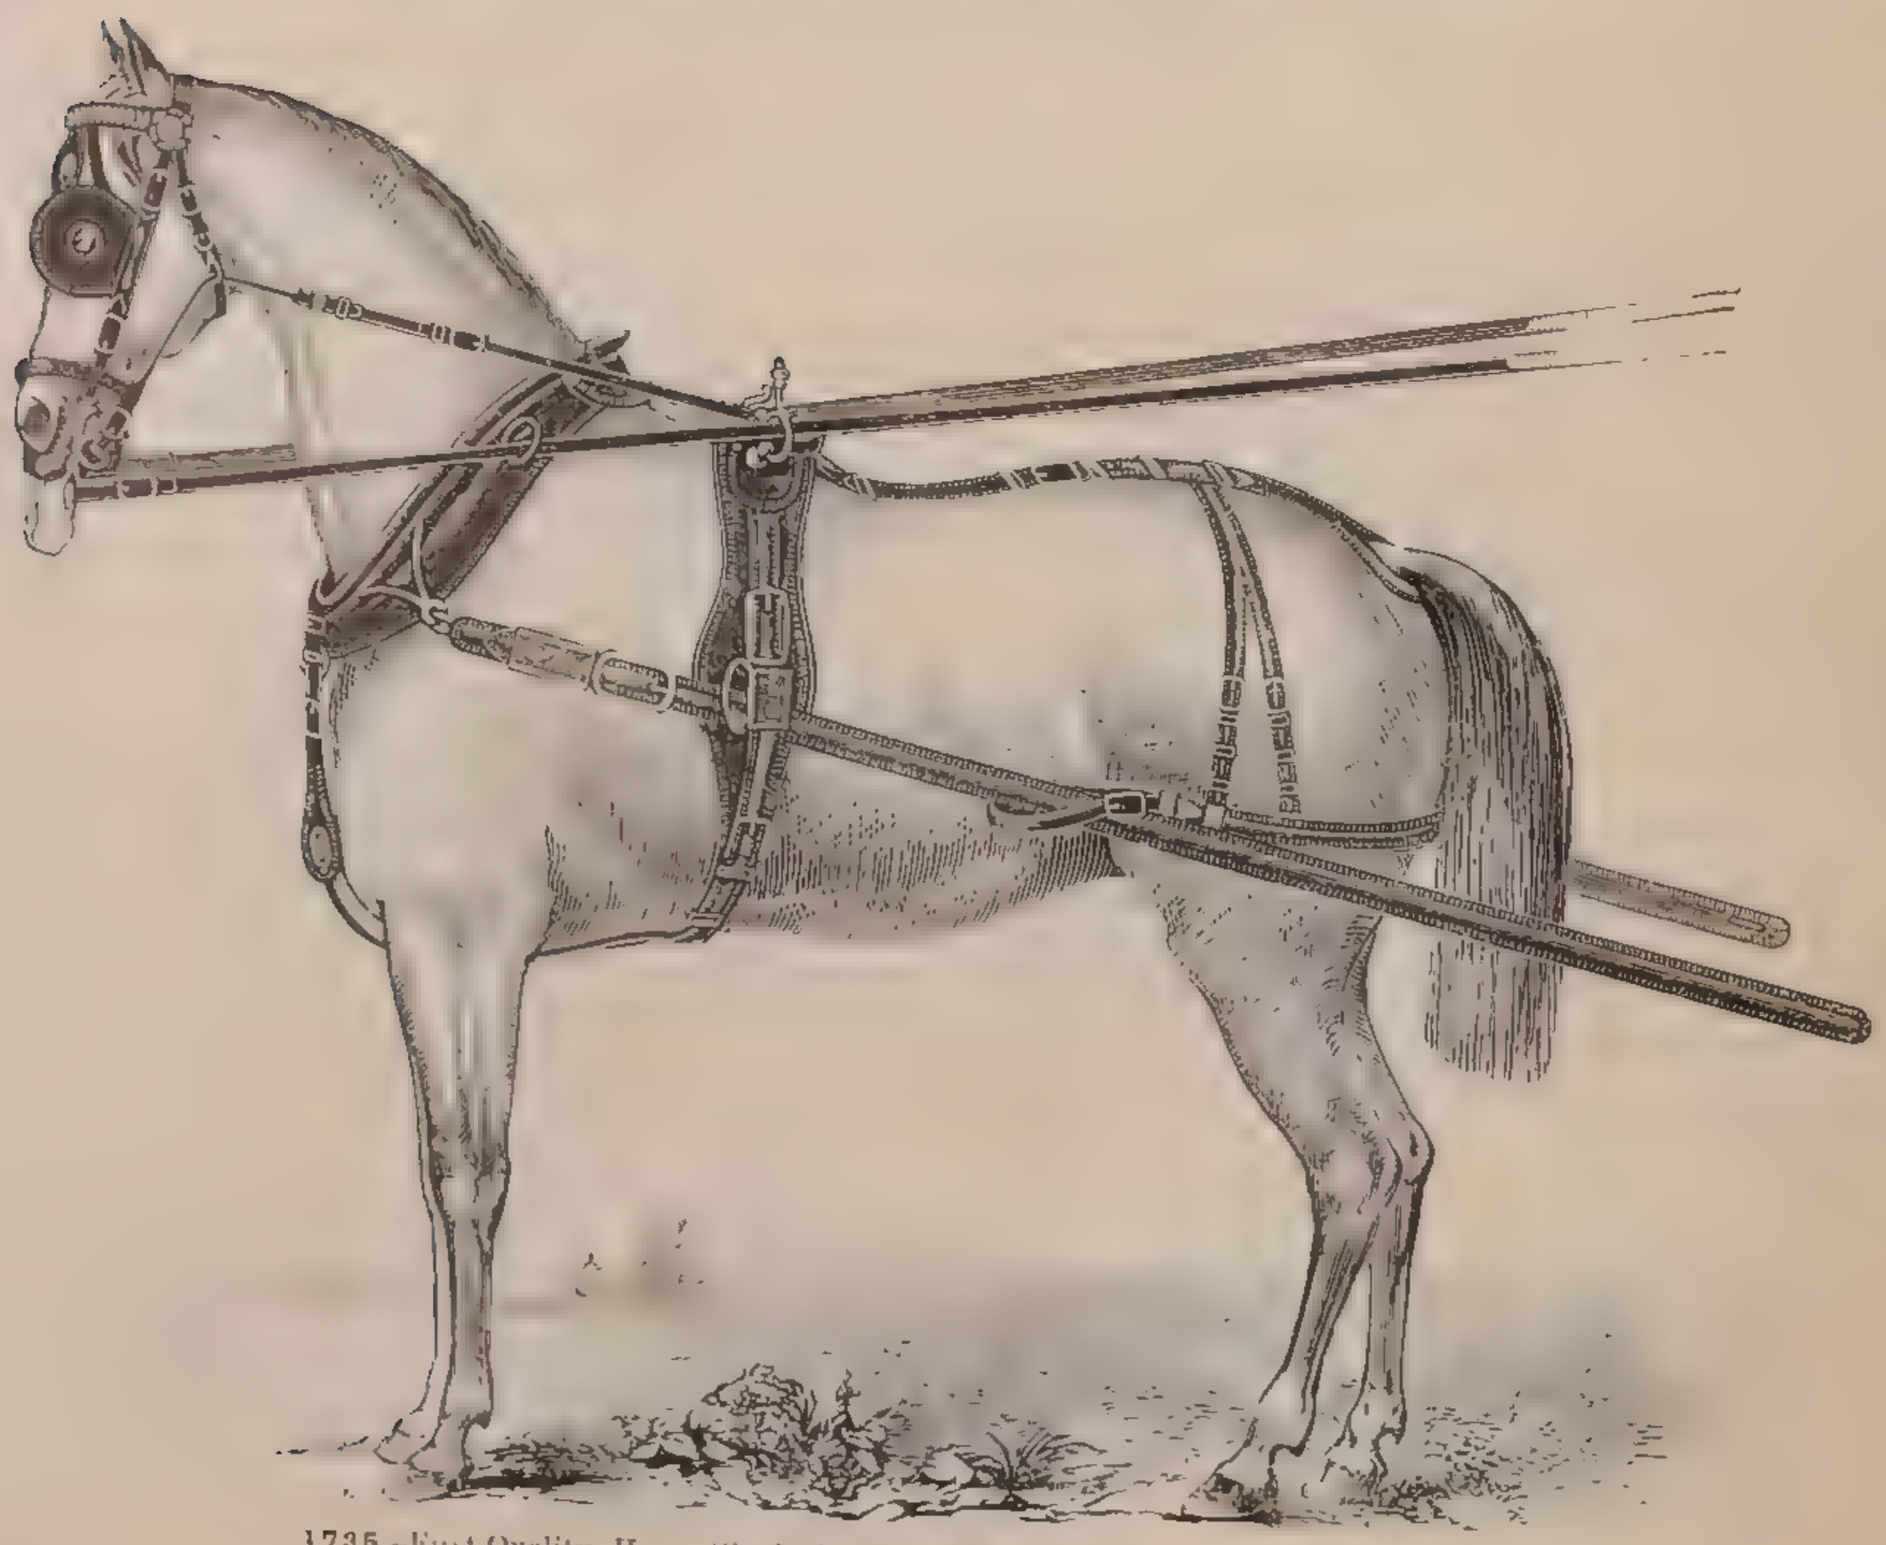
1733—Engraving shows method of attaching to Axle with Pin in Hub. A Polished Nickel Shield protects the Instrument from mud.

Registers the distance travelled, rings a small bell as each mile is passed, keeps a record for 1,000 miles, and repeats.

SINGLE HARNESS.

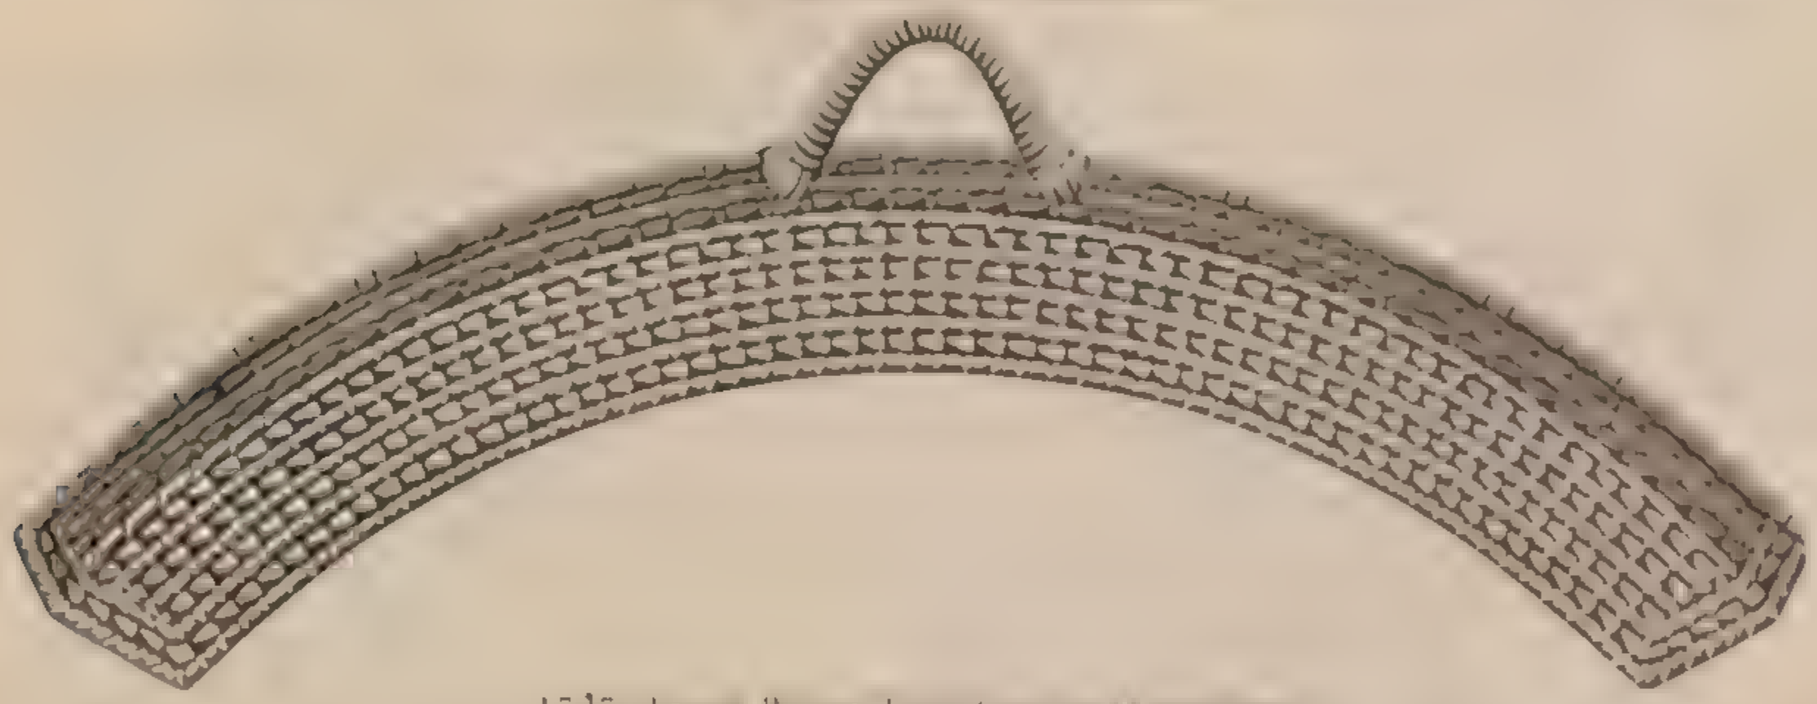


1734—Stylish Trap Harness, with French Bone Draft Eye



1735—First Quality, Heavy Single Coupe Harness, furnished in all styles of Furniture.

1730



1737

1738

VILLAGE CART HARNESS.

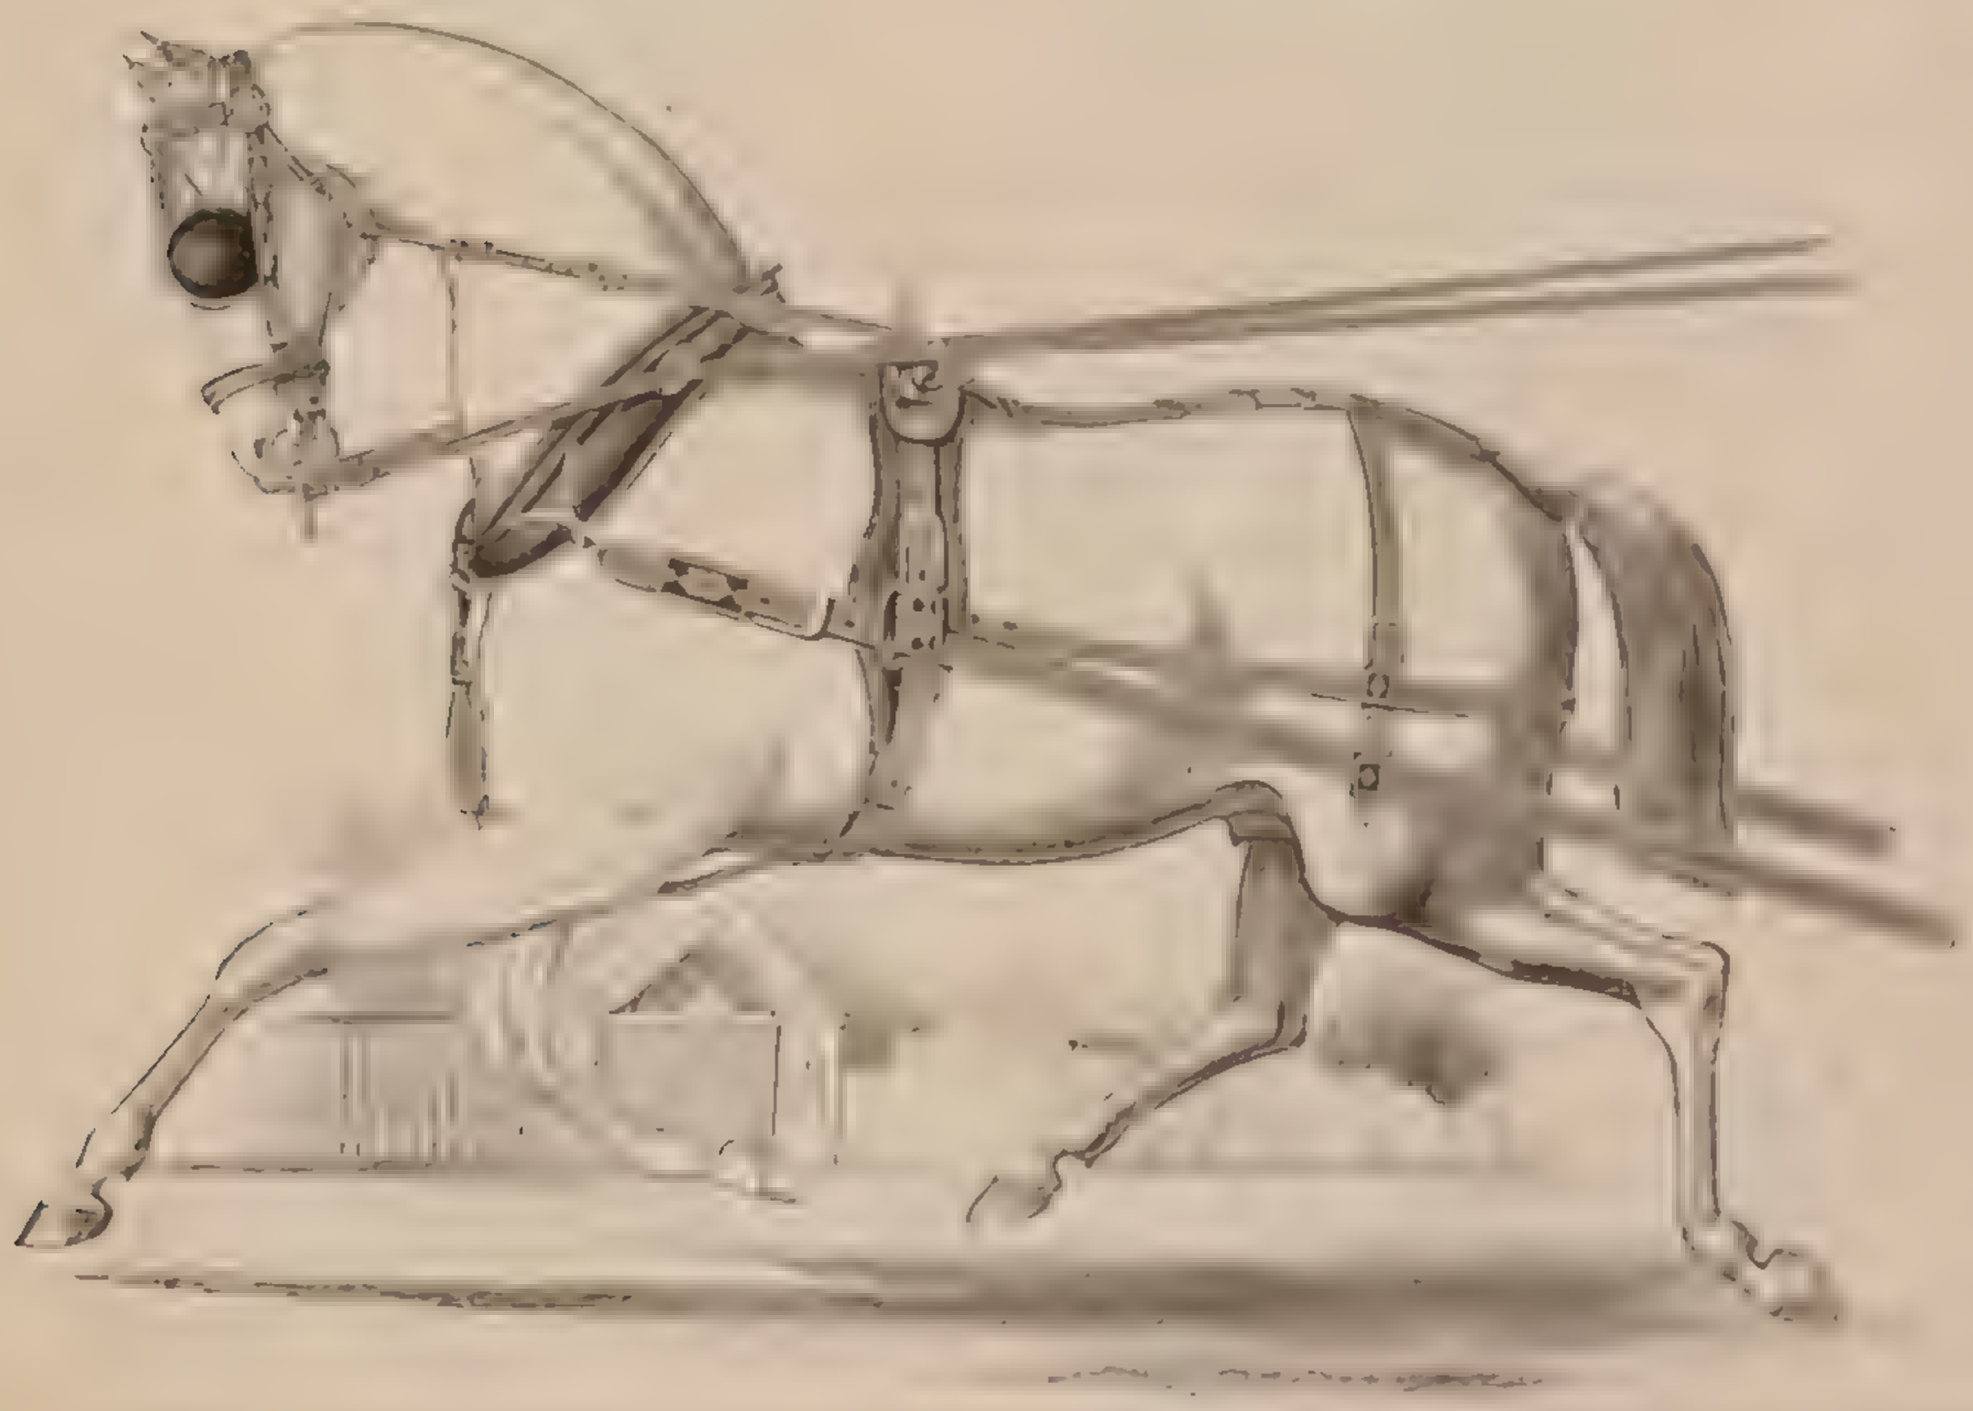
1738

We make VILLAGE CART HARNESS in the Latest Style, in Russet or Black Leather for Large and for Small Horses or Ponies, and trim with Solid Nickel, Silver or Brass, with English Rush. White Canvas, Colored or Black Leather Collars, and grade the price according to amount of work and quality of trimmings.

We continue the above illustration from a former book published by us in 1884, for the reason that it shows seated in the cart, the Father of those who founded and still carry on the business, and whose form, face and name, WM. C. MOSEMAN (who died October 5th, 1890, aged 76 years) we delight to honor

SINGLE HARNESS.

1740 [illegible] also made in White Buff, Brown, Red or other Colored Leathers for Private, Exhibition or Advertising Purposes



1741—First Quality, Heavy Strong Cab Harness, with Breeching suitable for use where Stop Plates are put on Shafts, particularly for Bent Shafts

This cut shows a good, strong, well made Mule-cart Harness, with Lead Harness attached

1752

This cut shows a plain, strong Mule-cart Harness, with Lead Harness attached. Contractors and Large Operators furnished with these goods at low prices.

Save * Your * Horses

And Double their Value by Using

THE "MOGUL" DRAUGHT SPRINGS.

The Mogul Draught Springs are to be attached to the traces, at the whiffletrees or at the hames.

There have been many inventions and devices made for trace-springs, but **none like the Mogul Springs.**

This is what the Mogul Springs will do, **absolutely and literally,** as proved by over one million in use

They completely obviate all sudden jerks and strains in passing over holes and impediments on the road.

They do absolutely prevent all injuries from the collar, ruptures, and the bursting of blood vessels from sudden violent strains.

They entirely heal up collar wounds and bruises; old sores will heal after beginning to use the Mogul Springs.

They do balking. Vicious horses become gentle and docile by using them.

They do actually increase the working power of the Horse fully twenty-five per cent.

They will increase the working life and value of the Horse.

Their elasticity will not give out, and they will not break under any strain, exceeding many times the power of any horse.

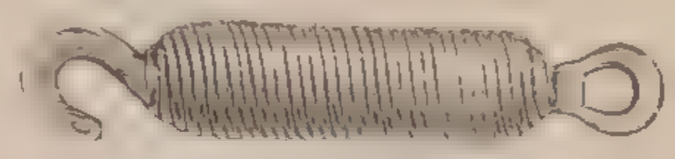
They work as well with the empty wagon as when it is heavily loaded

They are made of different elastic strength, to suit any kind of a vehicle.

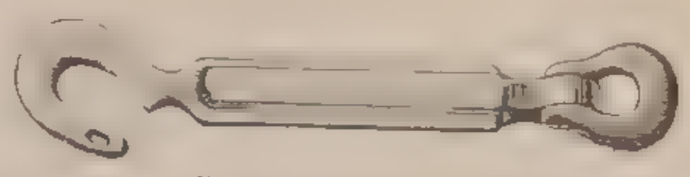
With ordinary care they will last for years.

SPRING DISTENDED, SHOWING THE DOUBLE SPRINGS

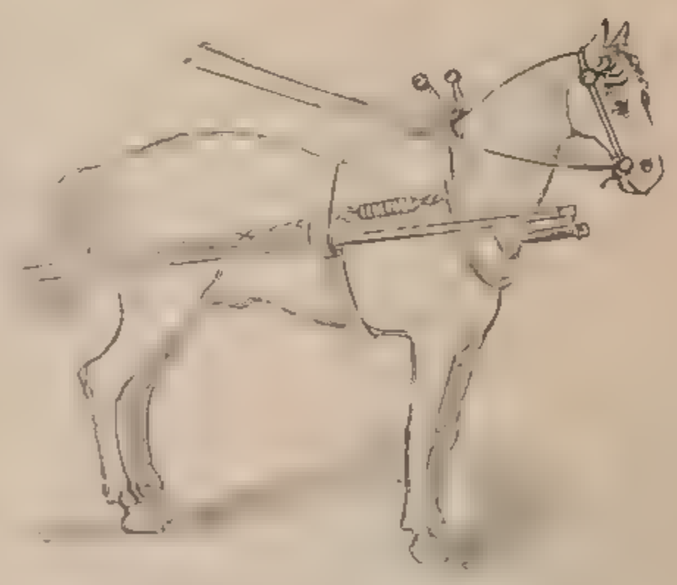
Mogul Springs attached to the rings in the whiffletrees by open links



The parts of a MOGUL DRAUGHT SPRING are two spiral springs, one within the other, wound in opposite directions around two long links The springs are wound in opposite directions, to compensate each other for loss of elasticity, and to overcome any tendency to bend or leave a straight line when contracting; while the links prevent breaking or overstraining the springs



INTERIOR LINK CLOSED.



Mogul Springs attached by open links to the collar, as for cart horses, mine mules, &c.

ADOPTED BY

U. S. GOVERNMENT ORDNANCE DEPARTMENT,

OVER ONE HUNDRED FIRE DEPARTMENTS.

IN GENERAL USE AMONG

THE LARGEST MINING COMPANIES AND ALL THOSE WHO DO HEAVY TEAMING.

Weight of each wagon (and whether double or single horse), also maximum load carried, should accompany each inquiry or order

"DO NOT CUT THIS BOOK."

Every consumer or dealer in Harness and Saddlery, no matter in what part of the world he does business, will promote his own interests by sending us **ONE DOLLAR** and receiving in return a copy of this complete Illustrated Guide Book. It is the key to success in the prosecution of business. He cannot afford to be without the knowledge it contains of every department of the trade. It will surely serve as a lamp to light him through the many perplexities which are incidental to the Harness Industry.

With this Book in your possession you are at liberty to write to us, or to any manufacturer or dealer in Harness or Saddlery Goods with whom you do business, asking questions or sending orders, and either will know just what you want if you will mention "MOSEMAN'S BOOK" and give the "NUMBER" under the article you wish to know about, or mention the picture of the article you may have under consideration at the time.

In any event, **DO NOT CUT THIS BOOK!** but simply give "Number" of the article you wish to obtain.

We are, yours for business,

C. M. MOSEMAN & BROTHER,

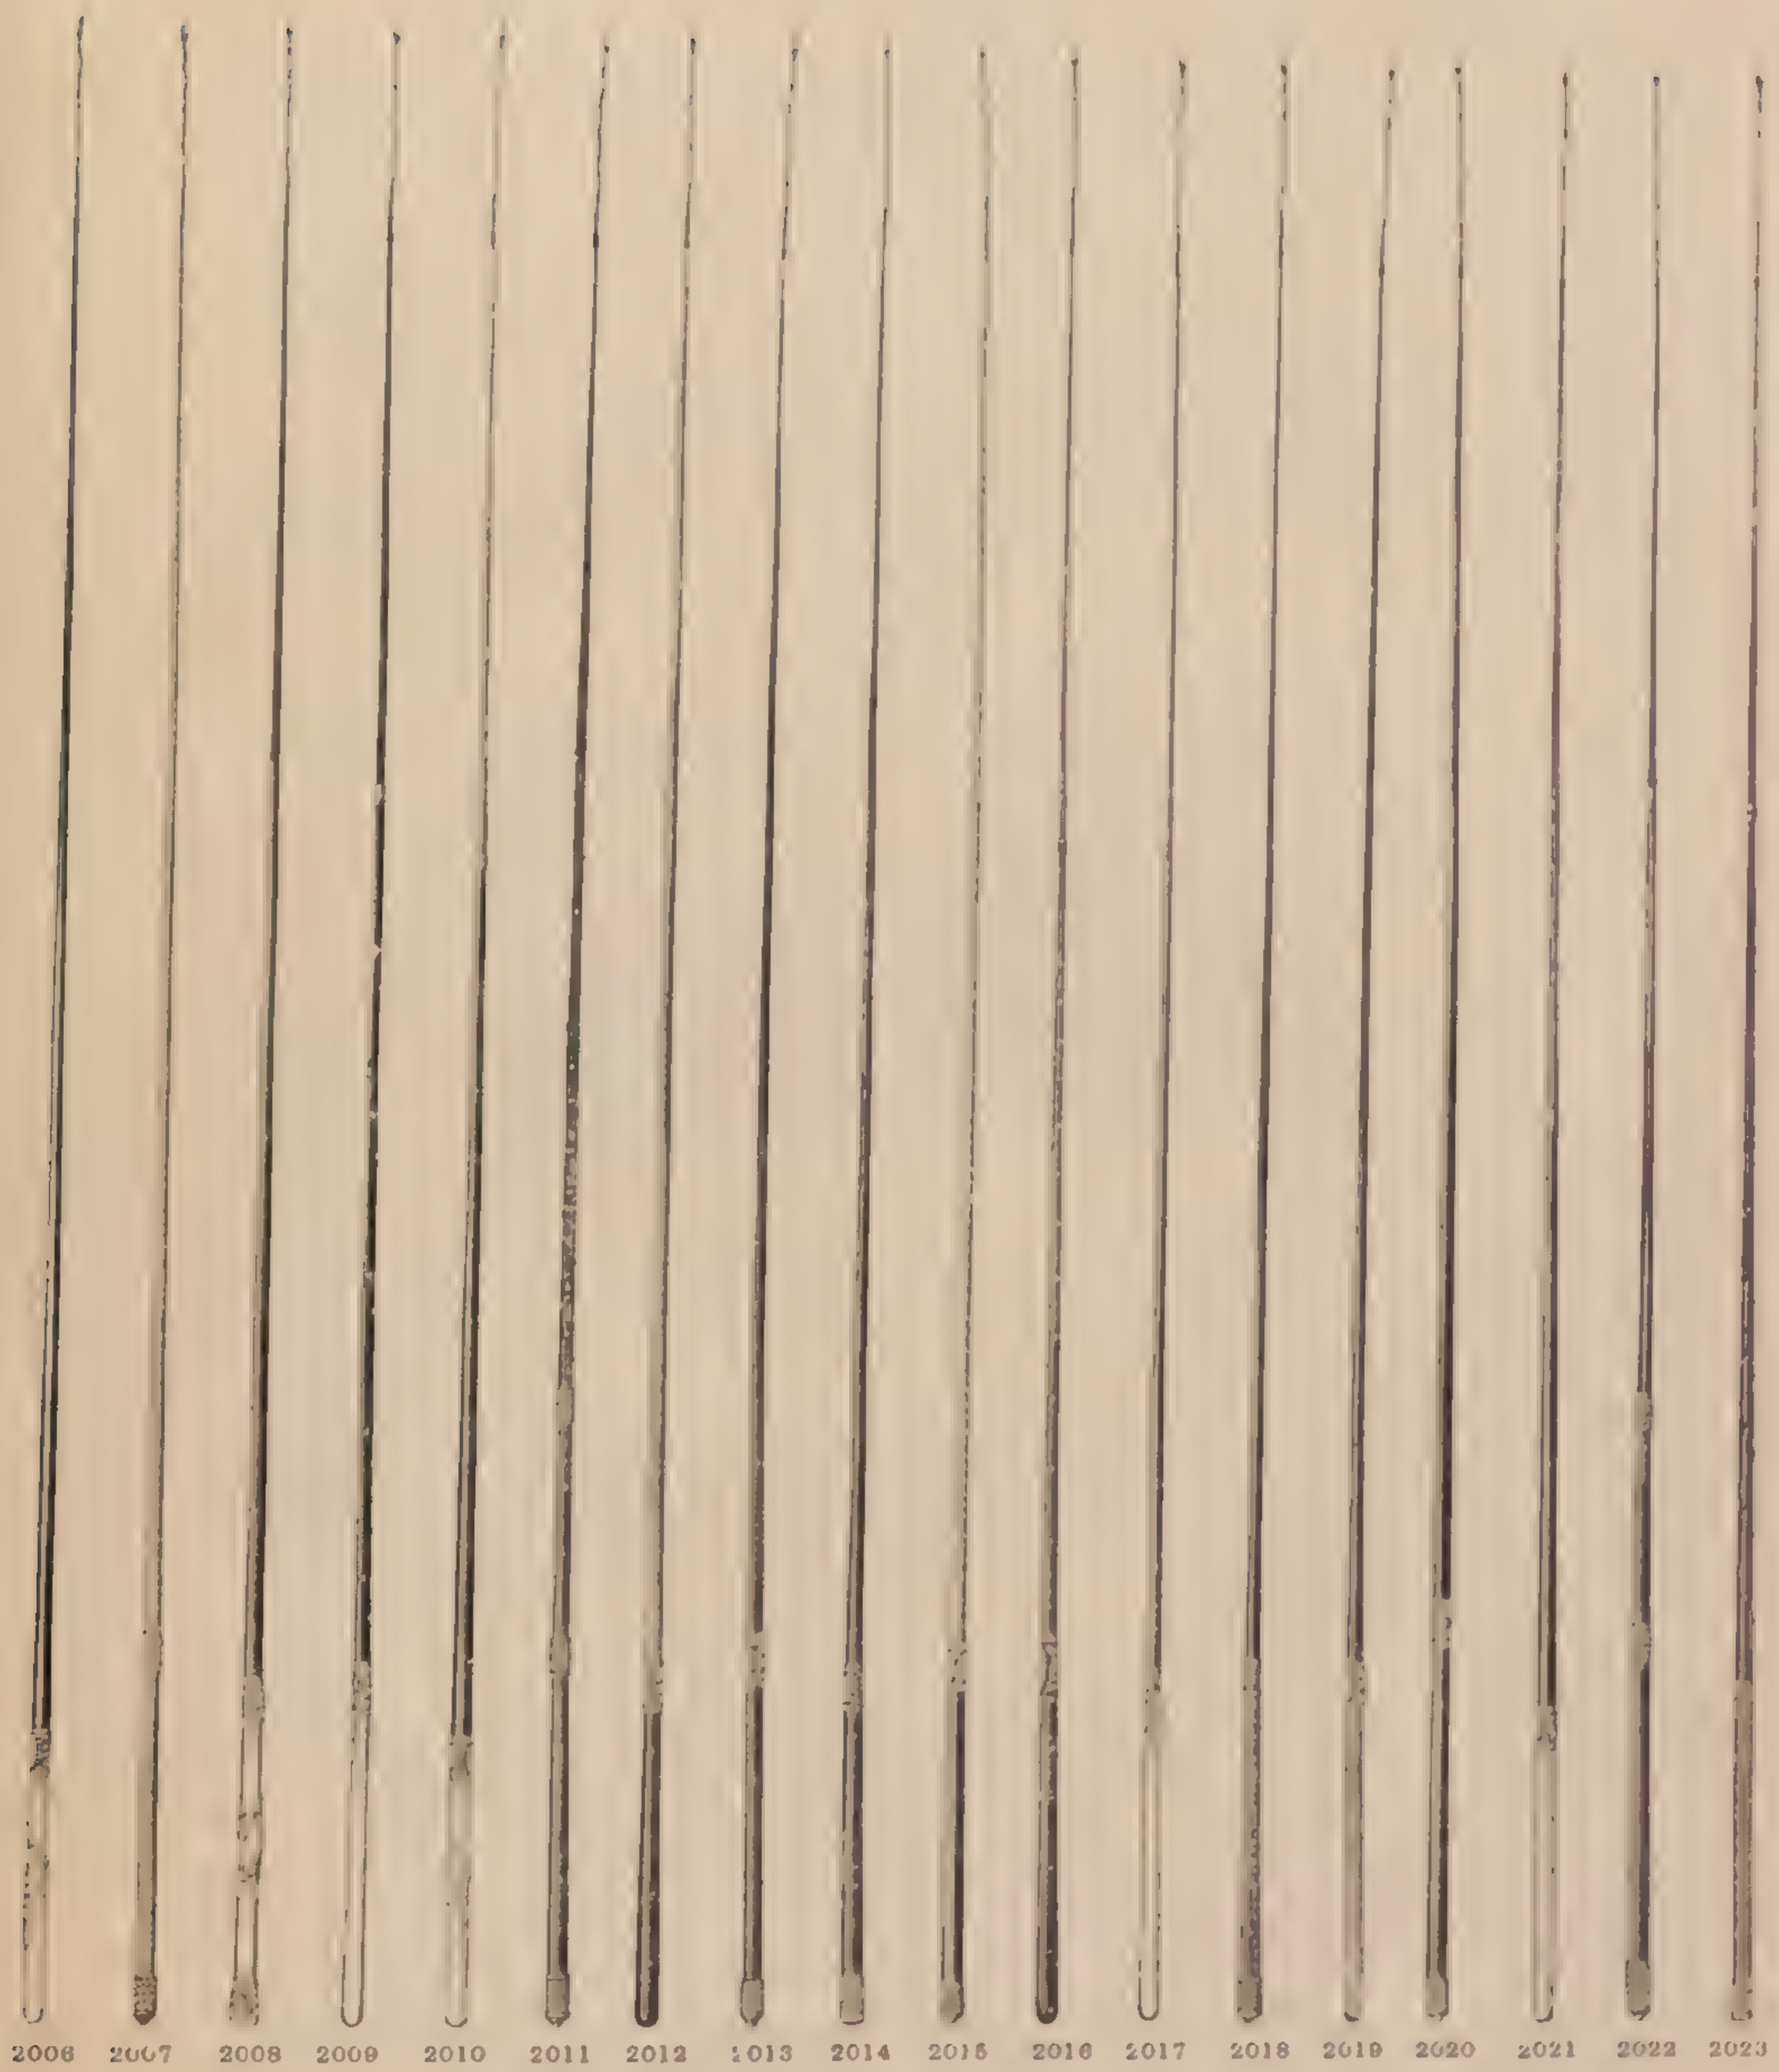
1994	1995	1996	1997	1998	1999	2000	2001	2002	2003	2004	2005
6 Ft	6 Ft	6 Ft	6 Ft	6 Ft.	6 Ft.	6 Ft.	6½ Ft.	7½ Ft.	6 Ft.	6 Ft.	6 Ft.

Ordinary and Medium Class of American Raw Hide and Java Filled Whips.

WHIPS.



Woodbury, Truit, Coburn, and other makes of fine American Bone Road Driving Whips Mounted with Various Styles of Ivory, Gold, Silver, Ebony, Snakewood and other Plain and Ornamental Handles, finished with Cotton, Linen, Silk and Gut Coverings.

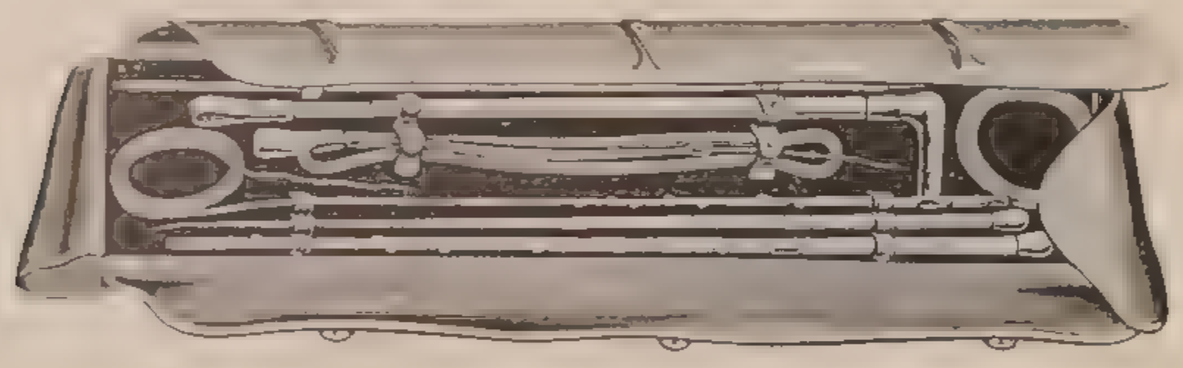
WHIPS.

We are handling ASHFORD'S make; the firm was established in 1790 and they were appointed by Royal Warrant makers to Her Majesty, the Queen, in 1844. Their Whips are somewhere about the best that are made, any way we have not seen any better or, of course, we should not have taken them up. We have made special arrangements as to shipments, prices and terms so that we are able to sell their highest class Whips, either at wholesale or retail, at quite exceptionally moderate prices. We are carrying a considerable stock and have most of the following lines, which are illustrated, in our store in New York, but, as we are having regular shipments, we can get any line we do not happen to have in stock, from the manufactory in England in a short time

On this page and the next will be found their latest novelties; on the following pages will be found their regular standard lines.

C. M. MOSEMAN & BROTHER.

ASHFORD'S PRESENTATION CASE OF WHIPS.



2024

Containing the following Whips, all of the highest quality and finish: HOLLY CARRIAGE WHIP, with Russia Leather Handle and Interchangeable Carriage, 4-in-hand and Gut and Whalebone Buggy Tops. (Making three distinct Whips). MALACCA CANE HUNTING CROP, with Thong (Stag Horn Hook), and a GUT AND WHALEBONE CUTTING WHIP, with Russia Leather Handle

The case is of best grained cowhide and is lined with Doe Skin and Velvet. The straps are made long enough to enable umbrellas, walking sticks or fishing rods to be strapped to the case when traveling.

BUILT CANE DRIVING WHIP.

PATENTED.

2025

With Russia Leather Handle. Electro Mounts. Sterling Silver Mounts.

These Whips are built from the choicest East India Mottled Bamboo Cane, in six sections, split and shaped by hand and cemented together with waterproof cement, exactly like the best salmon and trout fishing rods. They handle exceedingly well, are very durable and always keep straight. They are made suitable for either Gig, Coupe or Pair Horse, as may be required.

WHIPS.

COACHING WHIP WITH HORN.

"DO NOT CUT THIS BOOK."

Every consumer or dealer in Harness and Saddlery, no matter in what part of the world he does business, will promote his own interests by sending us **ONE DOLLAR** and receiving in return a copy of this complete Illustrated Guide Book. It is the key to success in the prosecution of business. He cannot afford to be without the knowledge it contains of every department of the trade. It will surely serve as a lamp to light him through the many perplexities which are incidental to the Harness Industry.

With this Book in your possession you are at liberty to write to us, or to any manufacturer or dealer in Harness or Saddlery Goods with whom you do business, asking questions or sending orders, and either will know just what you want if you will mention "MOSEMAN'S BOOK" and give the "NUMBER" under the article you wish to know about, or mention the picture of the article you may have under consideration at the time.

In any event, **DO NOT CUT THIS BOOK!** but simply give "Number" of the article you wish to obtain.

"DO NOT CUT THIS BOOK."

Every consumer or dealer in Harness and Saddlery, no matter in what part of the world he does business, will promote his own interests by sending us **ONE DOLLAR** and receiving in return a copy of this complete Illustrated Guide Book. It is the key to success in the prosecution of business. He cannot afford to be without the knowledge it contains of every department of the trade. It will surely serve as a lamp to light him through the many perplexities which are incidental to the Harness Industry.

With this Book in your possession you are at liberty to write to us, or to any manufacturer or dealer in Harness or Saddlery Goods with whom you do business, asking questions or sending orders, and either will know just what you want if you will mention "MOSEMAN'S BOOK" and give the "NUMBER" under the article you wish to know about, or mention the picture of the article you may have under consideration at the time.

In any event, **DO NOT CUT THIS BOOK!** but simply give "Number" of the article you wish to obtain.

We are, yours for business,

3046 - The Whittaker Spreader. Sliding on a Rod on the S

3047 - Holder to prevent a Horse from holding the reins under his tail, and to keep him from switching it

THE ALUMINUM TAIL FASTENER

For keeping the tail up without binding the dock.

3048

3049

The cut on the left shows Fastener just before closing the clasp with separate strands around the tail. The cut on the right shows Fastener as it appears in use.

GENERAL DIRECTIONS.

Divide the tail into two equal parts, twist them around each other four or five times like a rope, then fold up under the dock, lap the remaining ends around the dock until you have a few inches left, now push the long part of the Fastener down between the [illegible] and straight hair [illegible] the Fastener, then draw the ends of tail over hook, as shown in left hand cut, screw both sides of clasp down, and there you are.

COSMOPOLITAN HOTEL

OPPOSITE C. M. MOSEMAN & BROTHER.

"PROGRESS"

IS THE WATCHWORD OF THE PRESENT ERA.

NEW IDEAS AND NEW INVENTIONS

FOR

INCREASING THE SPEED OF THE HORSE

AND

PROMOTING THE COMFORT OF THE DRIVER

ARE DEVISED AND PATENTED DAILY.

CONSEQUENTLY, there will continue to be many useful appliances introduced to the public long after this book has found its place among the lovers of the horse in all parts of the world.

THEREFORE: Should you not find here what you are looking for, do not hesitate to write us about it, and we will at once give your wants attention.

Yours for business,

C. M. MOSEMAN & BROTHER.
